ITR - Quarterly Information
As of March 31, 2009 and 2008

INDEPENDENT AUDITORS' REVIEW REPORT

To the Board of Directors and Shareholders of JBS S.A.:

1. We have performed a review of the accompanying individual and consolidated Quarterly Information (ITR) of JBS S.A. (the "Company") and its controlled companies consisting of the balance sheets as of March 31, 2009, and the related statements of operations, cash flows and changes in shareholders' equity, notes and performance report for the quarter then ended, all expressed in Brazilian reais and prepared under the responsibility of the Company's management. The financial statements of Inalca JBS S.p.A , directly controlled company, were reviewed by other independent auditors. Our opinion, insofar as it relates to the carrying value of the investment in this company and the equity in its earnings, is based on the report of those auditors.
2. Our review was performed in accordance with specific standards established by IBRACON (Brazilian Institute of Independent Auditors) together with the Federal Accounting Council, which consisted principally of: a) inquiry of and discussion with the managers responsible for the accounting, financial and operating areas as to the main criteria adopted in preparing the Quarterly Information and b) review of the information and subsequent events that have or may have material effects on the financial situation and operations of the Company and its controlled companies.
3. Based on our review, we are not aware of any material changes which should be made to the Quarterly Information referred to in paragraph 1 for it to be in conformity with the standards issued by CVM - Brazilian Securities and Exchange Commission applicable to the preparation of Quarterly Information, including CVM Instruction No. 469/08.
4. As mentioned in note 2, Brazilian accounting practices were changed during 2008, and the effects of their initial adoption were only accounted for by the Company and its controlled companies in the fourth quarter of 2008, and disclosed in the financial statements as of December 31, 2008. The statements of operations, cash flows, and changes in shareholders' equity for the quarter ended March 31, 2008, presented along with the current quarter information, were not adjusted for comparative purposes pursuant to CVM/SNC/SEP Circular Letter No. 02/2009.
5. Our review was conducted in order to form an opinion with respect to the financial statements cited in paragraph 1, taken as a whole. The individual (Company) and consolidated value added statements represent information complementary to the financial statements; they are not required by the accounting practices adopted in Brazil and are provided to enable additional analysis. This complementary information was submitted to the same auditing procedures described in paragraph 2 and, in our opinion, are adequately stated, in all material aspects, in relation to the financial statements for the quarter ended March 31, 2009.
6. The accompanying financial statements have been translated into English for the convenience of readers outside Brazil.

3 Significant accounting policies

a) Profit and loss calculation

The operations results is in conformity with the accounting regime of competence.

b) Accounting estimates

The preparation of financial statements in accordance with generally accepted accounting principles in Brazil requires the Company's management to (i) make estimates and assumptions that affect the reported amounts of assets and liabilities and (ii) disclose (a) contingent assets and liabilities as of the date of the financial statements and (b) the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

c) Financial instruments

Financial instruments are recognized in the moment that the Company becomes part of the contractual dispositions of the instrument. When a financial asset or liability is initially recognized, it is registered by the fair value, plus transaction costs that are directly attributable to the acquisition or issuance of the financial asset or liability.

In case of financial assets and liabilities classified in the category of fair value through the result, the transaction costs are directly accounted in the profit and loss of the year.

Subsequent measurement of the financial instruments happens in each date of the financial statements according to the rules established for each classification of financial assets and liabilities in: (i) assets and liabilities measured to the fair value through the result, (ii) maintained until the expiration date, (iii) loans and receivables (iv) available for sale.

d) Allowance for doubtful accounts

Allowance for doubtful accounts is computed based on the probable loss, the profile of the customers, overall economic and financial condition and specific risks relating to the relevant customers. The Company's management believes that the allowance for doubtful accounts is sufficient to cover the exposure to possible losses.

e) Inventories

Inventories are valued based on their cost of acquisition, creation or production, which cost is lower than the market or net realizable value.

f) Investments

Investments in subsidiaries are accounted according to the equity method.

g) Property, plant and equipment, net

Property, plant and equipment are stated at an amount equivalent to their historical acquisition cost plus the amount resulting from the increase in the value of these assets as determined by revaluations performed by independent appraisal firms until December 31, 2007.

Depreciation is computed pursuant to the straight-line method, using rates described in Note 10, which take into account the useful and economic lives of the assets.

h) Intangible assets

The intangible assets are demonstrated by the acquisition or formation cost, deducted by the amortization. The intangible assets with indefinite useful life are not amortized.

The goodwill based on future profitability expectation is not been amortized starting from 2009 according to orientation OCPC 02 endorsed by CVM through the publication CVM/SNC/SEP 01/2009.

i) Reduction to recovery amount (Impairment)

The items of property, plant and equipment, intangible assets and deferred charges are tested by its recoverability amounts, at least annually, in case there are indications of loss of value. The goodwill and the intangible assets with indefinite useful life are tested annually independently of whether there is (or not) indication of loss of value.

j) Other Current and Long-term Assets

Current and long-term assets are accounted for at their realization value including, if applicable, the related income, charges and monetary variations.

k) Current Liabilities and non-current Liabilities

Current and non-current liabilities are accounted for at their known or computed amounts, including, if applicable, the related income, charges and monetary variations.

l) Contingent assets and liabilities

Contingent assets are recognized only when there are final judgments or favorable judicial decisions rendered. Contingent assets with probable gain are only published in accompanying notes.

Contingent liabilities are provisioned when the losses are appraised as probable and the involved amounts are measurable with enough certainty. The contingent liabilities appraised as possible losses are only published in accompanying notes and the contingent liabilities appraised as remote losses are neither accrued nor disclosed.

m) Income Tax and Social Contribution

Current taxes

Provisions for income tax and social contribution are based on rates and laws and regulations in force.

Deferred taxes

The Company records deferred income tax assets and liabilities based on temporary differences between the carrying amounts on the Company's financial statements and the tax basis of assets and liabilities.

n) Result by share

The result by share is calculated based on the outstanding shares on the date of the financial statements.

o) Consolidation

All assets and liabilities of JBS S.A. and its subsidiaries and revenues and expenses from transactions between JBS S.A. and its subsidiaries were eliminated. No inter-company profits were recorded on the consolidated balance sheet of the Company. Accordingly, the shareholders' equity of JBS S.A. individually is equal to its consolidated shareholders' equity.

The financial statements of the subsidiaries of JBS S.A. located outside of Brazil were originally prepared using the local currency of the country in which they are located. Subsequently, these amounts were converted into Reais using the applicable commercial exchange rates reported by the Central Bank of Brazil on the date of the consolidated balance sheet for assets and liabilities, and the average exchange rate of the period to revenues and expenses. The gains and losses due to the conversion are recognized directly in the shareholders' equity in the account of accumulated exchange conversion adjustments.

With respect to the Company's investment in JBS Argentina and its subsidiaries and Inalca JBS and its subsidiaries, we have compared the generally accepted accounting principles in Argentina and Italy with the corresponding principles in Brazil applied by the Company, and we have noted that there were no material differences.

The accounting practices adopted by Tupman and Astro, both subsidiaries of SB Holdings, located in the United States of America, do not differ significantly from those adopted in Brazil.

The accounting practices adopted in the United States of America by JBS USA (US GAAP) are adjusted to Brazilian GAAP, according to the following differences:

- Finished goods inventories: valued using market price, and are adjusted to production average cost method;
- Permanent assets: includes R\$ 753,304 related to intangible assets and fixed assets goodwill, calculated according to applicable purchasing accounting, and it was adjusted reducing the shareholder's equity.

The subsidiaries companies included in the consolidation are mentioned in the Note 9.

p) Adjustments of assets and liabilities to present value.

The financial long term assets and liabilities are adjusted by its present value, and the short term, when the effect is considered relevant in the financial statements. The adjustment to present value is calculated considering the contractual cash flows and the market interest rate.

q) Complemental information

In order to provide a better understanding of its financial statements the Company has presented, as complemental information, its consolidated statements Economic Value Added (EVA) report for the three months period ended March 31, 2009. The objective of this report is to demonstrate the wealth generated by the Company, and the distribution of this wealth among the elements that contributed to its generation, such as employees, lenders, shareholders, government and others, as well as the wealth portion not distributed.

Value-added tax on sales and services (ICMS / IVA / VAT)

Brazilian law authorizes manufacturers of goods to set off the ICMS tax paid upon the purchase of raw materials against the taxes charged upon the sale of the finished goods manufactured with such raw materials. Recoverable ICMS derives from tax credits received by the Company in connection with ICMS taxes paid upon its purchase of raw-materials, packaging materials and other goods, which are offset against ICMS taxes resulting from the sale of the Company's products. As export sales are exempt from ICMS and a relevant portion of the Company's sales are export sales, a tax credit is generated.

The Tax Authority of the State of São Paulo (*Secretaria da Fazenda do Estado de São Paulo*) filed administrative proceedings against the Company challenging the amount of the Company's ICMS tax credits arising from the purchase of cattle by the Company in other Brazilian states. The Tax Authority of the State of São Paulo claims that the tax incentives granted by such other states were not based upon an agreement with the State of São Paulo, and accordingly, the Tax Authority of the State of São Paulo only recognizes the Company's ICMS tax credits up to the amount of the ICMS tax paid in such other states. The Company's management believes that its accounting of the ICMS tax credit is in accordance with Brazilian law, and expects to be reimbursed of such credits.

PIS and COFINS (social contribution on net income)

PIS and COFINS tax credits are generated as a result of PIS/COFINS taxes paid by the Company upon its purchase of raw-materials, packaging and other materials used in the manufacturing of its products against the PIS/COFINS taxes paid by Company upon the sale of its finished products. Similarly to ICMS and IPI, as exports of the Company's products are exempt from such taxes, a tax credit is created.

IRRF (withholding income tax)

IRRF corresponds to withholding income tax levied upon the redemption of marketable securities by the Company. The Company expects to set off such withholding income taxes against income taxes on net income paid for the applicable period.

General comments

Based upon final administrative decisions by the *Câmara Superior do Conselho de Contribuintes* and on the opinion of its legal counsels, the Company and JBS Embalagens has performed a monetary adjustment of its tax credits of PIS, COFINS and IPI based on the SELIC rate (which is the reference rate published by the Central Bank of Brazil). After such monetary adjustments, the total PIS, COFINS and IPI tax credits totaled R\$ 134,753. From the total amount the Company received an amount of R\$ 17,045, and will receive an additional amount of R\$ 117,708.

Tax Proceedings

a) ICMS - Value Added Tax (Imposto sobre Operações Relativas à Circulação de Mercadorias e sobre a Prestação de Serviços de Transporte Interestadual e Intermunicipal e de Comunicação)

The Tax Authority of the State of São Paulo (*Secretaria da Fazenda do Estado de São Paulo*) filed several administrative proceedings against the Company, under which the Tax Authority challenges the amount of the Company's ICMS tax credits arising from the purchase of cattle and meat transfer by the Company in other Brazilian states. The Tax Authority of the State of São Paulo claims that the tax incentives should be approved by Confaz, and are known as a "Tax War". The Tax Authority of the State of São Paulo do not recognizes the Company's ICMS tax credits up to the amount of the ICMS tax paid in such other states. The Company estimates that the claims under these administrative proceedings amount to R\$ 118,000 in the aggregate. In addition to presenting its defense in such administrative proceedings, the Company has filed legal proceedings seeking the payment of damages from such other states if the Tax Authority of the State of São Paulo prevails in these administrative proceedings. The legal proceedings filed by the Company suspended the requirements of the State of São Paulo.

Based on the opinion of the Company's legal counsels, the Company's management established a provision for losses arising from such administrative and legal proceedings in the amount of R\$ 826.

The Tax Authority of the State of Goiás filed other administrative proceedings against the Company, due to interpretation divergences of the Law concerning the export VAT credits. Based on the opinion of the Company's external legal counsel, the management of the Company believes the Company will prevail in most of these proceedings. The Company's management has recorded a provision for losses arising from such administrative proceedings in the amount of R\$ 4,185.

b) PIS (Programa de Integração Social) and COFINS (Contribuição para Financiamento da Seguridade Social)

The Company has filed administrative proceedings challenging the calculation method used in the assessment of PIS and COFINS by the Federal Tax Authority (*Secretaria da Receita Federal*). The Company's management estimates that the contingencies arising from these legal proceedings amount to R\$6,969 in the aggregate. Based on the opinion of the Company's legal counsels and recent decisions granted by the Brazilian Federal Supreme Court (*Supremo Tribunal Federal*), the Company's management has recorded a provision for losses arising from such legal proceedings in the amount of R\$3,793.

c) Social contributions — Rural Workers' Assistance Fund (FUNRURAL)

In September 2002, the INSS filed two administrative proceedings (*autos de infração*) against the Company, seeking to collect certain social security contributions (which are referred to as contributions to the Rural Workers' Assistance Fund (NOVO FUNRURAL) referring the period from January 1999 to December 2003, in the amount of R\$ 69,200, and from 2003 until 2006, in the amount of R\$ 198,800, with the aggregate amount of R\$ 268,000 million, that the Company should have allegedly withheld in connection with purchases of cattle from individual ranchers. As a result of a decision by a lower court in a proceeding to adjudicate a writ of mandamus action filed by the Company in order to challenge the constitutionality of such social security contributions, the administrative proceedings have been stayed and the INSS has been enjoined from collecting these social security contributions from the Company.

The INSS has not timely appealed from this decision and, accordingly, the proceeding has been submitted to the review of the Regional Federal Court of the 3rd Region as a matter of law. Currently, the proceedings await a ruling by such appellate court. Based on the opinion of the Company's legal counsel supported by precedents of the Federal Supreme Court in a similar case, the Company's management believes that the Company will prevail in these proceedings. Accordingly, the Company has not established any provision for contingencies arising from these proceedings.

In order to preserve its claims under the administrative proceeding and to avoid the lapse of the applicable statute of limitations period relating to these claims, the INSS sent the Company tax default notices (*notificações fiscais de lançamento de débito*) with respect to the contributions allegedly owed by the Company for the period from January 2009 to December 2003, in the amount of R\$ 69,200, and from 2003 until 2006, in the amount of R\$ 198,800, with the aggregate amount of R\$ 268,000. In its defense to these default notices, the Company argued that it did not pay the contributions with respect to the period described in such notices in light of the favorable decision issued by the trial court reviewing the writ of mandamus action, which ordered the stay of the administrative proceedings and enjoined the INSS from collecting the contributions from the Company until a final decision is reached under such action.

JBS S.A.

Notes to the financial statements for the three months period ended March 31, 2009 and 2008
(Expressed in thousands of reais)

An ongoing legal proceeding arguing as to the unconstitutionality of the contribution to the Rural Workers' Assistance Fund, with issues and factual circumstances similar to the writ of mandamus action is currently under review by the Brazilian Federal Supreme Court (*Supremo Tribunal Federal*). Up to the present moment, five of the ten judges opining on this proceeding have voted to declare this contribution unconstitutional and no judge has issued a dissenting opinion on this matter.

Based on this and other precedents and on the opinions of its external legal counsel, the Company's management believes the Company will prevail in these proceedings. Accordingly, the Company's management has not established any provision for contingencies arising from these proceedings. Currently, the Company is not forced to apply any discount, or pay the amount. In case any discount is made, due to commercial negotiation, the Company apply the discount and deposits it in Judgement, accomplishing the judicial decision.

The Company actually cannot assure that the INSS will not file other legal proceedings or issue default notices as a result of its failure to pay these social contributions for other fiscal years not covered by the administrative proceedings and default notices filed against the Company. In addition, the Company is granted an unfavorable decision under these administrative and legal proceedings, and INSS will not just be able to demand the withdrawal from the values of the debit notifications, estimate effect of R\$ 38,000, as well as the values that have not been discounted, estimate effect of R\$ 43,600, that will result in a total estimate exposure of R\$ 81,600.

d) Other Tax Proceedings

The Company is also party to 100 other tax lawsuits and administrative proceedings. Contingencies arising from these proceedings are not material to the Company if considered on an individual basis. We highlight the proceedings with probable risk of loss, which have been provisioned for in the aggregate amount of R\$ 17,876.

Labor Proceedings

As of March 31, 2009 the Company was party to 1,169 labor and accident proceedings, 186 tax proceedings filed by the work regional police stations and 2 proceedings established by the work public prosecution service, involving total value of R\$ 106,606. Based on the opinion of the Company's external legal counsel, the Company's management recorded a provision in the amount of R\$19,445 for losses arising from such proceedings.

Most of these lawsuits were filed by former employees of the Company seeking overtime payments and payments relating to their exposure to health hazards.

In the three months period ended on March 31, 2009 the Company reviewed its criterion for contingencies allocation according to the legal natures, impacting in a considerable increase in the labor contingencies, in the involved and accrued amount, referring the new allocation of the proceedings of disease and labor accidents, that previously were allocated as civil nature contingencies, being now considered as labor contingencies.

Civil Proceedings

a) Slaughterhouse at Araputanga

In 2001, the Company (formerly known as Friboi Ltda.), entered into a purchase agreement for the acquisition of one slaughterhouse located in the City of Araputanga, State of Mato Grosso, from Frigorífico Araputanga S.A. ("Frigorífico Araputanga"). As a result of the payment of the purchase price by the Company and the acknowledgement by Frigorífico Araputanga of compliance by the Company with its obligations under the purchase agreement, a public deed reflecting the transfer of title of the slaughterhouse from Frigorífico Araputanga to the Company was registered with the applicable real estate notary.

As (i) Frigorífico Araputanga was a beneficiary of certain tax benefits granted by the Federal Government through an agency responsible for fostering the development of the northern region of Brazil (*Superintendência de Desenvolvimento da Amazônia* – SUDAM) and (ii) the slaughterhouse sold to the Company was granted by Frigorífico Araputanga to SUDAM as collateral for these tax benefits the consent of SUDAM was required for the registration of the public deed with the applicable real estate notary. In June 2004, Frigorífico Araputanga S.A. filed a lawsuit against the Company in a state court located in the City of Araputanga, State of Mato Grosso, alleging that the Company breached the purchase agreement and seeking an injunction to prevent the Company from finalizing the transfer of the slaughterhouse and a declaratory judgment that the purchase agreement and the public deed registered with the real estate notary were null and void.

In the lawsuit, Frigorífico Araputanga claimed that the sale of the slaughterhouse should be nullified as the Company did not obtain the consent of SUDAM in order to register the public deed with the applicable real estate notary. In January 2005, the court of appeals (*Tribunal de Justiça do Mato Grosso*) held that the Company had complied with all material terms of the purchase agreement. The lawsuit was subsequently submitted to the review of the Federal Court of Caceres, under No. 2005.36.01.001618-8, in light of the inclusion of the Federal Government as a party to the lawsuit. The Company obtained the consent of *Unidade de Gerenciamento dos Fundos de Investimento* - UGFIN, the successor of SUDAM, according to the Federal Regional Court of the 1st Region (*Tribunal Federal da 1ª Região*) decision, under Proceedings No. 2006.01.00.024584-7.

The parties are waiting for ruling following a judicial expert appraisal favorable to the company, that after evaluating the payments made by Agropecuária Friboi, the appraisal concluded that the debit was already paid. The judicial appeal number 2006.01.00.024584-7 was judged favorably to the Company, when the "TRF" Regional Federal Court declared valid the purchase title deeds of the property, object of discussion. Based on the Company's legal advisers' opinion and based on Brazilian jurisprudence management of the Company believes that their arguments will prevail and no provision was registered.

b) Trademark Infringement

In July 2005, Frigorífico Araputanga filed a lawsuit against the Company seeking damages in the amount of R\$26,938 and punitive damages in the amount of R\$100,000 for the use by the Company of the trademark "Frigoara" without Frigorífico Araputanga's consent. The amounts of the claim were based upon a report presented by Frigorífico Araputanga to the trial court, which appraised the value of the trademark "Frigoara" at R\$315,000.

The Company presented its defense against this lawsuit alleging that (i) the lawsuit should be analyzed and reviewed together with the lawsuit relating to the purchase of the slaughterhouse from Frigorífico Araputanga by the Company, (ii) the trademark "Frigoara" was used by the Company for a limited period of time, with the written consent and upon the request of Frigorífico Araputanga (the use of the trademark by the Company was a requirement of SUDAM to consent to the registration of the public deed contemplating the transfer of the slaughterhouse from Frigorífico Araputanga to the Company) and (iii) the amount of any damages under the lawsuit should be limited to a percentage of products sold by the Company under the trademark "Frigoara," pursuant to article 208 of the Intellectual Property Law. Almost all of the products manufactured by the Company were marketed under the trademark "Friboi." The only product marketed by the Company under the trademark "Frigoara" was minced meat, in limited amounts.

In light of the foregoing, the Company's management established a provision for losses arising from this lawsuit in the amount of R\$600. Following a determination of the judge of the trial court, the lawsuit was submitted to the review of the Federal Court of Cáceres on January 17, 2007. The judge of the Federal Court of Cáceres determined that this lawsuit be joined with the lawsuit relating to the purchase of the slaughterhouse by the Company from Frigorífico Araputanga. The Federal Government will be notified to issue an opinion on the matter under discussion in this lawsuit.

Based on the Company's legal counsel opinion supported by precedents of the Federal Brazilian Supreme Court (*Supremo Tribunal Federal*) and the Brazilian Superior Court of Justice (*Superior Tribunal de Justiça*), the Company's management believes that the Company will prevail in these proceedings.

c) Others

The Company is also party in other civil proceedings that in the evaluation of the Administration and its legal advisers, the loss expectation on March 31, 2009 is of R\$ 1,608.

17 Debit with third parties for investment

Refers to the amount of 65 million Euros that will be increased in Inalca's purchase price in case the Company achieves at least one of the following economic targets: EBITDA average over business year 2008, 2009 and 2010 equal or greater than Euro 75 million, or alternatively, EBITDA over business year 2010 equal or greater than Euro 90 million. In case none of these financial metrics is reached, the debit will be reverted against the goodwill of the acquisition.

The exchange rate and interest rate risks related to financings and loans, and accounts receivable from clients denominated in foreign currencies, inventories, are hedged on a transaction by transaction basis, through derivative instruments, such as swap contracts (dollar to CDI or LIBOR to fixed interest rates or vice-versa), futures contracts traded on the *Bolsa de Mercadorias e Futuros* - BM&F and forward contracts.

The notional value of the contracts is not registered in the financial statements.

The results of over-the-counter trades in the futures market and daily adjustments of currency future contracts are made realized and liquidated; on the BM&F, and are recognized as financial income or expense, in the profit and loss accounts.

b) Credit risks

The Company is exposed to credit risks in respect of accounts receivable, which are partially mitigated through the diversification of the credit profile of the Company's portfolio. The Company does not have a customer that represents more than 10% of its combined net sales revenue, and its customers have good financial and operating indicators.

c) Purchase Price of Cattle

The Company is exposed to volatility with respect to the price of cattle, caused by climate factors, supply, transportation cost and agricultural policies. According to its inventory policy, the Company maintains individual physical control of its livestock, which includes anticipated purchases combined with operations on the future markets.

d) Fair value estimate

The financial assets and liabilities of the Company are accounted for on the balance sheet based on their respective acquisition cost, and the related classification of revenue and expenses in the income statement is accounted for based on its expected realization or liquidation value.

The fair value of the financial instruments that are not derivatives and derivatives contracts was estimated based on the available market information.

e) Financial instruments information

Below are presented the assets and liabilities exposed to risks, which are subject to derivative instruments, as well as the effects of those accounts in the income statements of the three months period ended on March 31, 2009:

f) Sensitivity analysis

Considering that the Company is exposed, mainly, to the exchange rates and interests risks on its assets and liabilities in foreign currency, and uses derivative instruments for protection of these referred assets and liabilities, the variations scenarios are followed by the respective protection objects, generating almost zero effects.

24 Termination of purchase agreement

National Beef

On February 20th, 2009 the Company disclosure to its shareholders and the market in general that it has terminated the acquisition process of National Beef, and all related litigation with the Department of Justice will also be terminated. The Company announced the acquisition of National Beef on March 4th, 2008, and the Department of Justice of the United States Government filed a suit to block the deal on October 20th 2008 on competition grounds. The Company endeavored to encounter a solution with the parts involved but in the absence of satisfactory conditions decided not to follow on with the acquisition.

MESSAGE FROM THE PRESIDENT

Last year we consolidated our global production platform which involved a variety of challenges in implanting our culture in each of the production units acquired as well as the revision of our cost structure all of which resulted in improvements and considerable efficiency gains. We feel we have reached at least 70% of what we set out to do in implanting these improvements and we continue to work on the challenges ahead to finalize this process.

It is good to see that Brazil has initiated a process of progressively improving margins. Part of the excess slaughter capacity which was responsible for the imbalance has been shut down, the exchange rate is more favorable for the exporting companies, more credit has become available for our clients that are importing our products in a wide variety of countries, new markets are opening up and the Brazilian herd is being rebuilt.

During this first quarter of 2009, we still had to deal with the issues that spilled over from the latter half of last year and our focus has been on turning the page on a unique and stressful market situation. We have adjusted our commercial relations to reflect a new global credit reality. In a demonstration of how we can learn from past errors, we have implemented a rigid risk classification structure in our commercial relations both domestically and internationally with a view towards avoiding future losses. We have gone back to using a healthier commercial policy which includes pre-payments on exports and Letters of Credit confirmed by first class banks. Over and above, during this period we have made the necessary financial and structural adjustments required before following the next growth steps defined by the strategy of our company.

Besides the issues mentioned above, our first quarter results were impacted by negative margins in our Argentine business unit and by a decline in our pork business unit in the US (you will see details in relation to this in each related chapter). There are challenges which we are facing and resolving in Argentina and our pork business in the US is already showing signs of recovery as we enter the second quarter. More importantly, the results of this first quarter demonstrate the continuity of good margins in our US and Australian beef operation resulting from the implementation of improvements. Add to that a tendency towards improved margins in Brazil and you can understand why we are motivated and confident that 2009 will be a good year.

Due to the tightening of the global credit market and the reduced availability of credit lines in the international financial markets, we refocused concentrating on the financial health of our company instead of following a continued growth strategy. For a year now, we have not looked at acquisitions and in the meantime, we have rapidly deleveraged our company leading us to a strong cash position in a protein market which is demonstrating promising improvements. We are ready to grow again.

In order to analyze the future, let us have a look at the past. During 2005 and 2006, we restructured our debt profile in order to grow as we felt fit. We financed our working capital through debt and we used equity to support the growth of our operations. In 2007 and 2008 we built our global production platform and we continue to grow organically in South America and in the other countries where we are installed. The next years will be marked by the expansion and integration of a JBS global distribution

network which will further consolidate our strategy of creating the leading and most efficient global distribution Company for meats and meat derivatives both chilled and frozen.

My thoughts are based on the confidence shared with the Administration and on the belief in the capacity which I have in our team to continue growing, improving results and building a better Company. Without the support of the financial community, analysts and all our stockholders, our efforts would have been in vain. I thank you all for the confidence you have shown in our Company and in our Administration.

I would like to finish by thanking the whole team of collaborators. Running our Company during the last quarters of a turbulent global financial market has been a challenge. However, I am satisfied in knowing that I can count on leaders who are dynamic and agile and who have not measured their time in protecting JBS and in making our Company strong and protected against future external negative market factors beyond our control. Congratulations to you all for your efforts and dedication.

Joesley Mendonça Batista
President

STOCK PERFORMANCE (JBSS3)

CORPORATE GOVERNANCE

JBS has embraced a Corporate Governance model with a view to implementing the best practices in the Company. The view is that the model demonstrates transparency and confidence to the public, guaranteeing the best products and services for customers, solidity for suppliers, satisfactory return for shareholders and the certainty of a better future for all JBS collaborators.

The commitment of the Company towards an effective Corporate Governance is reflected in the fact that JBS is listed on the Novo Mercado of the Sao Paulo Stock Exchange (Bovespa). This carries the rigorous commitment to good Corporate Governance practices. At present, besides the Board of Directors and the Supervisory Board, JBS also has Audit, Finance, People Management and Business Strategy Committees.

To formalize the Company's protection against the risk of relevant losses in the Options Market, JBS's Shareholders approved in the Annual and Extraordinary General Meeting held on April 29, 2009 the inclusion of a new article in JBS's bylaws expressly prohibiting the Company and any of its subsidiaries, whether direct or indirect, to sign any contracts of sales of Options if the Company and any of its subsidiaries in question has no such activity in its corporate purpose.

In the same Shareholders Meeting, the election of the members of the Board and Fiscal Council were approved.

JBS ends 1Q09 with 58.2% net revenue growth when comparing to 1Q08, due to the conclusion of the acquisitions of Smithfield Beef and Tasman during 2008. EBITDA increased 20.0% from R\$175.7 million in 1Q08 to R\$211.5 in 1Q09.

The EBITDA margin reduced to 2.3% in 1Q09 from 3.0% in the same period of 2008. In 1Q08 Brazil still exported to the European Union, after which restrictions on Brazilian fresh beef were imposed. EU exports contributed to JBS Brazil EBITDA Margin of 13.9% in 1Q08, compared with 7.2% in 1Q09. Besides, certain factors affected margins at JBS Argentina and JBS USA Pork (see respective Business Units chapter) contributing negatively to the consolidated margin.

During 2008 there have been a concerns regarding stable results at JBS Beef USA and JBS Brazil. The 1Q09 results show sustainable margins at JBS USA Beef, aligned with the management expectations, considering the seasonality that affects the beef sector. In Brazil, the beef sector is recovering from structural issues, the Company expects continued margin growth as the fundamental are maintained.

Net Income / Loss

In 1Q09, the Company presented a loss of R\$322.7 million due to financial expenses of R\$446.6 million as well as losses in the Argentina operations.

The financial expenses of 1Q09 is composed of (i) debt servicing and (ii) export contracts from the second semester of 2008 that resulted in goods returned, cancelled contracts and delays which affected hedging positions and cattle purchase related to these contracts. The Company opted to settle all these pending positions and bear the losses of commitments it believes will not be honored.

ANALYSIS OF RESULTS BY BUSINESS UNIT

The Beef Business Unit of JBS USA (66% of gross revenue, including JBS A

JBS USA beef business was responsible for 66.0% of the Company's total net revenue in 1Q09. In relation to the 1Q08 the net revenue increased 38.5% from US\$1,935.1 million to US\$2,680.2 million in 1Q09, basically reflecting an increase in volume driven by the recent acquisitions. Due to heavy rains occurred in the far north of Australia, the reopening in Townsville plant which usually occurs after the year-end festive season was only possible at the beginning of March.

In the same period the EBITDA margin increase went from -0.7% in 1Q08 to 2.2% in 1Q09 and includes cost reductions due to remodeling supply contracts, elimination of certain third party service providers and improved margins by superior sales mix and carcass yield enhancements. Examples are the sale of short ribs to Korea, picanha to Brazil and the introduction of Australian meat to new South American markets.

Comparing 1Q09 to 4Q08 the slight decrease of 3.9% in the net sales reflect a drop in volumes due to the annual seasonal closure for maintenance of the Australian plants in January, as well as a reduction in the average price.

The EBITDA margin maintained at 2.2% in 1Q09. The margin increments in the past quarters confirm the sectors recovery reaching sustainable levels with balanced market capacity and supply availability.

The Pork Business Unit of JBS USA (12% of gross revenue)

JBS pork business unit net revenue decrease of 1.7% from US\$535.5 million in 1Q08 to US\$526.3 million in 1Q09 primarily reflects a reduction in volume due to a lower availability of hogs in the market, partially offset by an increase in sales prices.

Compared with the previous quarter, the net revenue went from US\$600.5 million in 4Q08 to US\$526.3 million in 1Q09 decreasing 12.4%. That movement reflects a reduction in pork volumes attributable to a weakening of the meat margin spread as hog price increases were not able to be passed through with higher sale prices.

The EBITDA margin decline to 1.4% in 1Q09 was driven by a decrease in Pork slaughter volumes and an increase in hog prices which could not be passed through in terms of higher sale prices, especially for rendered products that include fats which accompany worldwide lower petroleum prices. On the other hand on per head basis, storage, freight and utilities costs were reduced.

The INALCA JBS Business Unit (5% of gross revenue)

Revenues in 1Q09 compared with the 4Q08 decreased 11.3%. Inalca JBS's Italian beef segment had lower performance comparing to the previous quarter, as well as the Inalca JBS's foreign operations, mainly in Russia, Angola and Congo. The reductions on sales are linked to the year-end seasonality and the financial crisis that affected European and African markets at the beginning of this year.

There is an overall increase of 9.1% in 1Q09 compared with 1Q08, from €131.9 million to €144.0 million. The EBITDA margin reduction from 5.1% in 4Q08 to 3.9% in 1Q09 was caused by lower sales performance. There was a change in the mix of products sold caused by the migration of costumers to lower value added cuts.

JBS Brazil Business Unit (15% of gross revenue)

In Brazil, the suspension of some relevant industry competitors provided an opportunity of market-share improvement for Company, sustained by a solid financial structure and available capacity.

The investments made to increase capacity that JBS made in the past few years allowed the Company to boost its revenue 11.4% in 1Q09 compared with the same period in 2008. The net revenue went from R\$1,009.0 million in 1Q08 to R\$1,124.4 million in 1Q09.

When compared with 4Q08 there is a 9.5% drop on the net revenues. This is a seasonal movement caused by higher consumption of beef in the period due to the holidays of the end of the year. Besides, in the months prior to Easter the demand for beef is reduced.

The EBITDA margin reduction observed between 1Q08 and 1Q09 from 13.9% to 7.2% is justified by the exports volume drop to the European Union, a premium cuts market. In the beginning of 2008 cattle traceability restrictions that were imposed on Brazil drastically reduced the exports to the E.U..

The EBITDA had an increase from 6.3% in 4Q08 to 7.2% in 1Q09, reflecting export volumes recovering, a favorable exchange rate, better domestic market and lower costs of raw-material.

JBS Argentina Business Unit (2% of gross revenue)

Net revenue of JBS Argentina had a decrease of 7.8% in 1Q09 when compared with the previous quarter due to a reduction in the volume sold in the domestic market and lower average sales price in exports.

The net revenue increased 43.0% in the 1T09 when compared to 1Q08, as a result of lifting quotas restrictions that limited export volumes of industrialized products, industrial action by producers, price controls imposed by the government that negatively impacted the Company's operations 1Q08.

The EBITDA margin was adversely impacted by the reduction in export volume caused by the credit crunch that affected customers, a reduction in average prices and a low volume of sales of industrialized/further processed products.

Recent Events

Senior Notes

JBS USA, LLC and JBS USA Finance, Inc. (subsidiaries of JBS S.A.) concluded in April 2009 the issuance of a Senior Notes Offering in the principal amount of US\$700 million, with a coupon of 11.625%, due in 2014.

JBS intends to use the proceeds to balance debt with revenue geographically and improve its short term liquidity, as well as increasing its cash position.

Company comments: Given the fact that JBS is operating in the US for under two years and in the present financial environment, we feel that the strong demand for these Notes is a measure of how far we have progressed. This is our first issuance by our US subsidiary, and we are pleased to see the confidence that the financial community has demonstrated in our work. We plan to continue to operate efficiently in our global production platform, and the funds raised will help us reach that goal.

H1N1 Influenza (North American Influenza)

The Company believes that there is no health hazard related to the consumption of pork products. Although the recent outbreak of influenza has been miss-titled as Swine Influenza instead of North American Influenza (as communicated by the World Health Organization – WHO), there is no evidence that this virus is related to swine production or that the consumption of pork meat represents a health risk.

Company comments: JBS is primarily a beef Company with an extensive production platform in the major producing countries and has a pork operation which represents 14.0% of the Company's revenue. JBS does not raise hogs and is not vertically integrated. We buy and process hogs so any eventual demand reduction would be immediately reflected in the hog prices. In this scenario, we believe we can maintain our margins in the pork business.

Although the Company reiterates that there is no evidence to suggest that pork products represent a risk to consumers, any eventual reduction in pork demand would represent a corresponding increase in beef demand, a sector where the Company is a global leader.
