Report on the quarterly information review

To
The Board of Directors and Shareholders of
JBS S.A.
São Paulo - SP

Introduction

We have reviewed the individual and consolidated interim financial information of JBS S.A. ("Company") contained within the Quarterly Information - ITR for the three-month period ended on June 30, 2011, which comprise the balance sheet and the related statements of operations, comprehensive income, changes in equity and cash flows for the three and six-month period then ended, including the notes to these interim financial information.

Management is responsible for the preparation of the individual interim financial information in accordance with Technical Pronouncement (CPC) 21 – Interim Financial Reporting and the consolidated interim financial information in accordance with the CPC 21 and with the International Accounting Standard (IAS) 34 - Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), and for the presentation of these interim financial information in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the Quarterly Information - ITR. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of the review

We conducted our review in accordance with Brazilian and International Standard on Review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion about the individual interim financial information

Based on our review, we are not aware of any fact that causes us to believe that the individual interim financial information included in the quarterly information referred to above is not prepared, in all material respects, in accordance with CPC 21 applicable to Quarterly Information and presented in accordance with the standards issued by the Brazilian Securities and Exchange Commission.

Conclusion about the consolidated interim financial information

Based on our review, we are not aware of any fact that causes us to believe that the consolidated interim financial information included in the quarterly information referred to above is not prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to Quarterly Information and presented in accordance with the standards issued by the Brazilian Securities and Exchange Commission.

Other issues

Interim statement of value added

We have also reviewed the individual and consolidated Interim Statement of Value added for the quarter and period ended June 30, 2011, whose disclosure in the interim financial statements is required in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of the Quarterly Information and considered as supplemental information by the international accounting standards (IFRS), which do not require the disclosure of the Statement of Value Added. This statement was submitted to the same review procedures previously described and based on our review, we are not aware of any fact that would lead us to believe that they have not been fairly stated, in all material respects, in relation to the Individual and Consolidated interim financial information taken as a whole.

Audit and review of the prior year and period amounts

On April 4, 2011 BDO Auditores Independentes, a legal entity established in Brazil which held the legal right to use the BDO trademark, became part of the KPMG network of professional service firms under the new corporate name of KPMG Auditores Associados. BDO Auditores Independentes reviewed and audited the interim financial information and the financial statements for the period and year ended June 30, 2010 and December 31, 2010, respectively, while it still held the right to use BDO trademark, and issued reports dated August 4, 2010, with an unmodified opinion and March 16, 2011, which had a modification due to doubts about the effects of subsidiary Inalca JBS S.p.A. in the Individual and Consolidated financial statements. As disclosed in footnote 9, this subsidiary was discontinued in March, 2011, being presented as Discontinued Operation retrospectively. As part of our review in the interim financial information of 2011, we have also reviewed the effects of the presentation related of this Discontinued Operation and we have concluded that such presentation is appropriated.

The consolidated financial statements were prepared and are in accordance with International Financing Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB), and also in accordance with accounting policies adopted in Brazil.

Individual financial statements (Company)

The individual financial statements were prepared in accordance with accounting practices adopted in Brazil, in compliance with the Law of joint stock companies (Lei das sociedades por ações - Leis das SA's), considering the amendments made by Brazilian Laws 11.638/07 and 11.941/09 and pronouncements, interpretations and orientations of Brazilian Accounting Pronouncements Committee (Comitê de pronunciamentos contábeis) - CPC approved by resolutions of the Brazilian Federal Accounting Council (Conselho Federal de Contabilidade) - CFC, and requirements of the Brazilian Securities Commission - CVM.

The individual financial statements present the evaluation of investments in subsidiaries by the equity method, according to Brazilian legislation. However, the financial statements are not in accordance with the IFRS, which requires the evaluation of these investments in the individual Company's financial statements of the Company measured at their fair value or at cost.

The financial statements of subsidiaries presented prior to the first time adoption of IFRS are adjusted to the policies adopted by the Group - International Financing Reporting Standards (IFRS). Similarly for new acquisitions of investments after the adoption to IFRS is IFRS 3 (R)/ CPC 15 - Business Combinations is applied, which presents investment to fair value, subsequently, evaluating its investments.

JBS S.A.

Notes to the consolidated financial statements for the six months period ended June 30, 2011 and 2010
(Expressed in thousands of reais)

Once there is no difference between the consolidated shareholders' equity and the consolidated profit/loss attributable to shareholders of Company, presented in the consolidated financial statements prepared in accordance with IFRSs and the practices adopted in Brazil, and shareholders' equity and profit/loss of the Company, presented in the individual financial statements prepared in accordance with accounting practices adopted in Brazil, the Company has decided to present individual and consolidated financial statements into a single set side by side.

Function and presentation currency

These consolidated financial statements are presented in reais, which is the Company's functional currency. All financial information are presented in thousands of reais.

3 Significant accounting practices

The main accounting practices used in the preparation of these interim consolidated financial statements, as described below, have been consistently applied all over the reported periods and years, unless otherwise stated.

a) Revenue recognition

Revenue and expenses are recorded on the accrual basis. Revenue includes the fair value of the payment received or receivable for sale of products and services in the normal course of business.

Revenue is net of taxes, returns, rebates and discounts, as well as of intercompany sales, on note 23 is presented net revenue conciliation. Revenue is recognized when the risks and rewards of ownership have been transferred to the buyer.

According to IAS 18/CPC 30 - Revenues, the Company recognizes revenue when, and only when:

- (i) the amount of revenue can be measured reliably;
- (ii) the entity has transferred to the buyer the significant risks and rewards incidental to ownership over the goods;
- (iii) it is probable that the economic benefits will flow to the Company and its subsidiaries;
- (iv) the entity neither maintain involvement in the Managerial of product sold at levels normally associated with ownership nor effective control of such cost of good sold.
- (v) expenses incurred or to be incurred related to the transaction, can be reliably measured.

The expenses are recorded on the accrual basis.

b) Accounting estimates

In the process of applying the Company's accounting policies, Management made the following judgments which can eventually have a material impact on the amounts recognized in the financial statements:

- impairment of non-financial assets;
- loss on the reduction of recoverable value of taxes;
- retirement benefits;
- measurement at fair value of items related to business combinations;
- fair value of financial instruments;
- provision for tax, civil and labor risks;
- estimated losses on doubtful receivables;
- biological assets; and
- useful lives of property, plant and equipment.

The Company reviews estimates and underlying assumptions used in its accounting estimates at least on a quarterly basis. Revisions to accounting estimates are recognized in the financial statements in the period in each the estimates are revised.

The settlement of transactions involving these estimates may result in different amounts due to potential inaccuracies inherent in the process of its determination.

c) Cash and cash equivalents

Cash and cash equivalents include cash balances, banks and financial investments with original maturities of three months or less from the date of the contract.

d) Trade accounts receivable

Trade accounts receivable correspond to amounts owed by customers in the ordinary course of business of the Company. If the due date is equivalent to one year or less, the accounts receivable is classified as current assets. Otherwise, the corresponding amount is classified as noncurrent assets.

Accounts receivable are initially recognized at fair value less any allowance for doubtful accounts when necessary, subsequently measured at amortized cost, less any provision for doubtful accounts (PCLD) and any provision for impairment when necessary. In practice, are recognized at the invoiced amount, adjusted by any provision of loan losses and provision for possible impairment if there is evidence of reduction in the recoverable amount.

e) Allowance for doubtful accounts - Loss estimation

Allowance for doubtful accounts is recorded in an amount considered sufficient to cover probable losses on accounts receivable.

The allowance for doubtful accounts expense was recorded under the caption "Operating Expenses" in the consolidated statement of income. When no additional recovery is expected, the allowance for doubtful accounts is usually reversed against the definitive write-off of the account receivable.

JBS S.A.

(Expressed in thousands of reais)

f) Inventories

In accordance with the requirements of IAS 2/CPC 16 - Inventories, the inventories are stated at the lower of the average cost of acquisition or production, and the net realizable value. The cost of inventories is recognized in income statement when inventories are sold.

g) Biological asset

In accordance with the requirements of IAS 41/CPC 29 - Biological Assets, companies that operate with agricultural activities, such as grain crops, increased herd (of cattle feedlot operations or livestock grazing), and various agriculture crops are required to mark to market these assets, which effect shall be recorded in statements of income of the year.

The evaluation of biological assets is done quarterly by the Company, and the gain or loss on change in fair value of biological assets is recognized in statement income of the period in which it occurs, in specific line as a reduction of gross revenue and cost of products sold.

Biological assets are stated by market value according to note 7.

h) Investments - Individual financial statements

In the individual financial statements of the Company, the information of the subsidiaries are measured by the equity method.

Exchange differences on foreign currency investments are recognized in shareholders' equity in the accumulated translation adjustments.

i) Property, plant and equipment

According to IFRS 1/CPC 37 - First-time adoption of International Financial Reporting Standards - IFRS, an entity may elect to measure an item of PP&E at the date of transition to IFRS at its fair value and use that fair value as its deemed cost at that date.

Thus, the PP&E are recorded under fair value, presented at historical acquisition cost plus spontaneous revaluations performed up to December 31, 2007 for a significant portion of Property, plant and equipment (PP&E) based on reports of specialized company.

The loans interest that are directly attributable to fixed assets acquisition or construction of assets are capitalized as part of the costs of these assets. Borrowing costs that are not directly related to assets are capitalized based on average interest rate on the balance of construction in progress. These costs are amortized according to the estimated useful lives of the related assets.

The depreciation is recorded using the straight-line method over the estimated useful lives of the assets, so that the value of cost less its residual value after the useful life is fully depreciated (except for land and construction in progress). The estimated useful lives, residual values and depreciation methods are reviewed at the end of the financial statement date and the effect of any changes in estimates are accounted for prospectively.

An item is disposed when there is no future economic benefits resulting from its continued use. Any gains or losses on sale or disposal of fixed assets are determined by the difference between the amounts received against the book value and are recognized in income statement.

j) Intangible assets

Consist mostly of goodwill recorded in accordance with IAS 38/CPC 4 - Intangible assets by cost or formation, less amortization and any applicable losses by impairment. Amortization is recognized using straight-line method based on the useful lives of assets. The estimated useful lives and amortization method are reviewed at the end of each financial year and the effect of any changes in estimated are accounted for prospectively.

Goodwill arising from business combination

The goodwill resulting from business combinations is stated at cost at the date of business combination, net of accumulated impairment.

The goodwill are annually subjected to impairment testing, or more frequently when impairment indications are identified. If the recoverable amount of the cash-generating unit is less than the book value, the impairment loss is booked. Any impairment loss on the recoverable amount of goodwill is directly recognized in income statement. The impairment loss is not reversed in subsequent periods.

At the sale of the corresponding cash-generating unit, the goodwill is included in the calculation of profit or loss on disposal.

Impairment of tangible and intangible assets, excluding goodwill

Property, plant and equipment, intangible assets with defined useful life and other assets (current and noncurrent) are tested for impairment, if indications of potential impairment exist. Intangible assets are tested for impairment when an indication of potential impairment exist or on an annual basis, regardless of whether or not there is any indication of impairment, pursuant to IAS 38/CPC 4 - Intangible Assets.

After each year end a review is made of the book value of tangible and intangible assets to determine whether there is some indication that those assets have suffered any impairment. If such indication is identified, the recoverable amount of the asset is estimated in order to measure the amount of such loss, if any.

The recoverable amount is the higher amount between fair value less costs to sell and value in use. In evaluation of value in use, the estimated future cash flows are discounted to present value by the discount rate before tax that reflects current market assessment of the value of money in the time and the specific risks to the asset.

If the recoverable amount of an asset is lower than its carrying value, the asset is reduced to its recoverable amount. The loss on the impairment is recognized immediately in the statement of income and is reversed if there has been a change in the estimates used to determinate the recoverable amount. When an impairment loss is subsequently reversed, there is an increase in amount of the asset due to the revised estimate of its recoverable amount, but it does not exceed carrying amount that would have been determined if no loss on the impairment had been recognized for the asset in prior years. Reversal of loss on the impairment is recognized directly in the statement income.

JBS S.A.

Notes to the consolidated financial statements for the six months period ended June 30, 2011 and 2010
(Expressed in thousands of reais)

k) Non-financial assets

The carrying amount of non-financial assets except for inventories, biological assets and deferred taxes are tested for impairment. Intangible assets with indefinite useful lives and cash generating units to which goodwill has been allocated are tested for impairment on an annual basis, regardless of whether or not there is any indication of impairment, pursuant to IAS 38/CPC 4 - Intangible Assets. Our other non-financial assets are tested for impairment only when there is an indication of possible impairment (triggering event). An impairment loss is recognized if the carrying amount of an asset exceeds its estimated recoverable amount.

The recoverable amount of an asset is the greater of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to present value using a discount rate before tax that reflects current market assessment of the time value of money and the specific risks to the asset.

If the recoverable amount of an asset is lower than its carrying value, the asset is reduced to its recoverable amount. The loss on the impairment is recognized immediately in the statement of income. An impairment loss in respect of goodwill is not reversed. Impairment losses recognized are allocated first to reduce the carrying amount of goodwill allocated and then to reduce the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

When an impairment loss related to non-financial assets other than goodwill is subsequently reversed, there is an increase in amount of the asset due to the revised estimate of its recoverable amount, to the extent it does not exceed the carrying amount that would have been recognized if no loss on the impairment had been recognized for the asset in prior years. Reversal of loss on the impairment is recognized immediately in the income statement.

l) Other current and noncurrent assets

Other current and noncurrent assets are stated at cost or realizable value including, if applicable, income earned through the balance sheet date.

m) Trade accounts payable

Correspond to the amounts owed to suppliers in the ordinary course of business of the Company. If the payment period is equivalent to one year or less, suppliers are classified as current. Otherwise, the corresponding amount is classified as noncurrent. When applicable, are added interest, monetary or exchange rate.

n) Income tax and social contribution**Current taxes**

Current taxes are computed based on taxable income at tax rates in effect, according to prevailing legislation.

Deferred taxes

Income tax and social contribution (deferred tax) are calculated on the temporary differences between the tax bases of assets and liabilities and their carrying amounts. Deferred tax is determined using tax rates enacted and expected to be applied when the deferred tax assets are realized or when the income tax and social contribution tax liabilities are settled.

Deferred tax assets are recognized only in proportion of the expectation to the likelihood that future taxable income will be available against which the temporary differences, tax losses and tax credits can be used.

Deferred tax assets and liabilities are offset if there is a legal right to offset current tax assets and liabilities, and they are related to income taxes levied by the same taxation authority on the same taxable entity.

o) Dividends

The dividend distribution proposed by Management that is equivalent to the mandatory minimum dividend of 25% is recorded under the caption "Declared Dividends" in liabilities since it is considered a legal obligation established by the Company's by laws. However, the amount of dividends higher than the mandatory minimum dividend, declared after the period covered by the consolidated financial statements but before the date of authorization for release of the consolidated financial statements, is recorded under the caption "Proposed Additional Dividends" in shareholders' equity, with a disclosure in the notes to the financial statements.

p) Current and noncurrent liabilities

Current and noncurrent liabilities are stated at known or estimated amounts, including, if applicable, charges and monetary or exchange variations.

q) Noncontrolling interest

According to IAS 1/CPC 26, Presentation of financial statements, noncontrolling interests shall be presented in the consolidated financial statements within shareholders' equity, with respective effects included in the statement of income.

r) Contingent assets and liabilities

Contingent assets are recognized only when their realization is "virtually certain", based on favorable final judicial decision. Contingent assets are disclosed where an inflow of economic benefits is probable.

Contingent liabilities are accrued when losses are probable and the amounts can be estimated reliably. Contingent liabilities classified as possible are only disclosed and contingent liabilities classified as remote are neither accrued nor disclosed.

s) Adjustment of assets and liabilities to present value

As provided under IFRS, the Company presents, when applicable, assets and liabilities at present value assets and liabilities long term are adjusted to present value, but the adjustment on the short-term balances occurs on when the fact is considered material in relation to the consolidated financial statements.

JBS S.A.

Notes to the consolidated financial statements for the six months period ended June 30, 2011 and 2010
(Expressed in thousands of reais)

In the present value calculation adjustment the Company considered the following assumptions: (i) the amount to be discounted; (ii) the dates of realization and settlement; and (iii) the discount rate.

The discount rate assumption relies on current market valuations as to time value of money and specific risks for each asset and liability.

t) Consolidation

The consolidated financial statements include the financial statements of the Company individual and its subsidiaries and joint controlled entities (proportionally consolidated). Control is obtained when the Company has the power to control financial and operating policies of an entity so as to obtain benefits from its activities.

When necessary, the financial statements of subsidiaries are adjusted according to the accounting policies established by the Group.

All transactions, balances, income and expenses between Group companies are eliminated in the consolidated financial statements.

The financial statements of the foreign subsidiaries are originally prepared in the currency of the country in which they are located and, subsequently, are converted into IFRS and Brazilian reais using the exchange rate in effect at the balance sheet date for assets and liabilities, the historical exchange rate for changes in shareholders' equity and the average exchange rate for the period for income and expenses when it is appropriate. Exchange gains and losses are recognized in shareholders' equity under the caption "accumulative translation adjustments" in accordance with IAS 21/CPC 2 - The effects of changes in foreign exchange rates.

u) Foreign currency translation**Functional and reporting currency**

Transactions in foreign currencies are translated to the respective functional currencies of the Company entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortized cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortized cost in foreign currency translated at the exchange rate at the end of the reporting period.

The items of the financial statements of the subsidiaries are measured using the currency of the primary economic environment in which the subsidiaries operate ("functional currency"), being translated to Brazilian Real at the corresponding exchange rate of the reporting period for assets and liabilities, the historical rate for equity and the average exchange rate of the period for the income statement. With the exchange rate effects recognized in comprehensive income.

v) Earning per share

According to with IAS 33/CPC 41 - Earnings per share, the Company presents the basic and diluted earnings per share data for its common shares:

Basic: Calculated by dividing net income allocated to common shareholders of the Company by the weighted average number of common shares outstanding during the year.

Diluted: Calculated by dividing net income attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the year, adjusted for the effects of all dilutive potential common shares in common shares, adjusted for own shares held.

w) Financial instruments

Subsequent measurement of financial instruments occurs at each balance sheet date, according to the rules for each category of financial assets and liabilities.

• Financial assets at fair value through profit or loss

Financial asset are classified by its fair value on the financial report if it is classified as held for trading and designated as such upon initial recognition. Financial assets are designated at fair value through profit or loss if the company manages such investments and makes purchase and sale decisions based on their fair values in accordance with a documented risk management and investment strategy of the Company. Transaction costs, after initial recognition are recognized in income statement as incurred. Financial assets recorded at fair value through profit or loss are measured at fair value and changes in fair value of these assets are recognized in statement of income of the period.

• Loans and receivables

Loans and receivables are financial assets with fixed or estimated payment amounts that are not quoted in an active market. Such assets are initially recognized at fair value plus any attributable transaction costs. After initial recognition, loans and receivables are measured at amortized cost using the effective interest method, decreased by any loss on the impairment. The main assets of the Company classified in this category are "trade accounts receivables" and "related parties".

• Held to maturity

In case the Company intends and is able to hold bonds to maturity, then such financial assets are classified as held to maturity. Investments held to maturity are initially recognized at fair value plus any directly attributable transaction costs. After initial recognition, investments held to maturity are measured at amortized cost using the effective interest method, decreased by any loss on the impairment. The Company has no financial instruments in this category.

• Financial liabilities

The Company has recognized debt securities and subordinated debt in the first date on which they originated. All other financial liabilities (including liabilities designated at fair value recorded in income) are initially recognized on the trade date on which the Company becomes a party to the contractual provisions of the instrument. The Company write off a financial liability when its contractual obligations canceled or expired.

JBS S.A.

Notes to the consolidated financial statements for the six months period ended June 30, 2011 and 2010
(Expressed in thousands of reais)

The Company has the following non-derivative financial liabilities: loans, financing, trade accounts payable, debits with related parties and other payables.

• Impairment of financial assets

Financial assets, except those designated at fair value through profit or loss, are valued by indicators of the impairment at the end of each period. The losses by impairment is recognized if, and only if there is any indication that an asset may be impaired as a result of one or more events that occurred after initial recognition, are impact on the future cash flows estimated of this asset.

The financial asset booking value is reduced directly by the loss of the impairment for all financial assets, except accounts receivable in the booking value is reduced by provision. Subsequent recoveries of amounts previously written off are credited to the provision. Changes in the booking value of the provision are recognized in statement of income.

• Derivatives

The Company and subsidiaries register and disclose financial instruments and derivatives according to IAS 39/CPC 38 - Financial Instruments: Recognition and Measurement, IFRIC 9 - Revaluation of embedded derivatives and IFRS 7/CPC 40 - Disclosure of Financial Instruments. The financial instruments are recognized after the Company and its subsidiaries are part of the contract of the instruments.

Based on a risk management policy of the JBS Group, the Company and/its subsidiaries, contract financial derivatives instruments in order to minimize the risk of losses due to the exposure to fluctuation in exchange rates, interest rates, commodities prices, credit risks and liquidity, which can affect the valuation of current and noncurrent assets, future cash flow and profit.

The fair value of derivative instruments is calculated by the treasury department, based on information of each contracted transaction and market information on the dates of closure of the financial statements, such as interest rates and exchange rates.

x) Business combination

According to IFRS 3/CPC 15 - Business Combination, business acquisitions are accounted using the acquisition method at the acquisition date, which is the date on which control is transferred to the Group. The consideration transferred in a business combination is measured at fair value, which is calculated by adding the fair values of assets transferred, liabilities incurred in the acquisition date for the old drivers and acquired the shares issued in exchange for control of the acquiree. The acquisition-related costs are generally recognized in income when incurred.

Goodwill is measured as the excess of the sum of the consideration transferred, the recognized amount of noncontrolling interests in the acquired business plus the fair value of the existing equity interest in the acquire less the net recognized amount (generally fair value) of the identifiable assets acquired and liabilities assumed. If the excess is negative, a bargain purchase gain is recognized immediately in income as a gain.

If the initial accounting for a business combination is incomplete at the closing of the period in which the business combination has occurred, the recording of the temporary values of items whose accounting is incomplete are made. These temporary figures are adjusted during the measurement period (which shall not exceed one year from the date of acquisition), or additional assets and liabilities are recognized to reflect new information relating to facts and circumstances existing at the acquisition date which, if known, would have affected the amounts recognized on that date.

y) Employee benefits

Defined Contribution Plans:

A defined contribution plan is a plan for post-employment benefits under which an entity pays fixed contributions into a separate entity (Provident Fund) and shall have no legal or constructive obligation to pay additional amounts. Obligations for contributions to pension plans to defined contribution plans are recognized as expenses for employee benefits in income in the periods during which services are rendered by employees. Prepaid contributions are recognized as an asset upon condition that there is reimbursement of cash or a reduction in future payments is available. Contributions to a defined contribution plan whose income is expected for 12 months after the end of the period in which the employee renders service are discounted to their present values.

Defined benefit plans

A defined benefit plan is a plan for post-employment benefits different than defined contribution plan. The net liability with regard to pension plans of defined benefit is calculated individually for each plan by estimating the amount of future benefit that employees earned in return for services rendered in the current period and prior periods, that benefit is discounted to present value. Any past service costs not recognized and the fair values of any plan assets is deducted.

The discount rate is yield at the reporting date on funds that have maturity dates approximating the terms of the appropriate subsidiary's obligation and that are denominated in the same currency in which benefits are expected to be paid. The calculation is performed annually by a qualified actuary using the projected unit credit method.

When the calculation results in a benefit for the indirect subsidiary, the asset to be recognized is limited to the total cost of any unrecognized past service and present value of economic benefits available in the form of future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any minimum funding requirements that apply to any plan in indirect. An economic benefit is available to the indirect subsidiary if it is achievable during the life of the plan or the liquidation of the plan liabilities.

When the benefits of a plan are increased, the portion of the increased benefit relating to past service by employees is recognized in the straight-line method over the average period until the benefits become vested. In the condition in which the benefits become vested right immediately, the expense is recognized immediately in income.

All actuarial gains and losses arising from defined benefit plans are accounted on other comprehensive income.

z) Segment reporting

In accordance with IFRS 8/CPC 22 - Segment reporting - Segment reporting is presented consistently with the internal report provided to the entity's chief operating decision maker to make decisions about resources allocations, performance evaluation by segment and strategic decision making process.

aa) Statements of Cash flow

The statements of cash flows have been prepared by the indirect method in accordance with the instructions contained in IAS 7/CPC 3 - Statement of Cash Flows.

ab) Statement of comprehensive income

According to IAS 1/CPC 26 - Presentation of Financial Statements - This statement reconciles net income to total comprehensive income.

ac) Discontinued operations

A discontinued operation is a component of the Group's business that represents a separate major line of business or geographical area of operation that has been disposed of or is held for sale or distribution, or is a subsidiary acquired exclusively with a view to resale. Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. When an operation is classified as a discontinued operation, the comparative statement of comprehensive income is re-presented as if the operation had been discontinued from the start of the comparative year.

ad) Economic Value Added

In accordance with CPC 9 - Statement of Economic Value Added, the Company included in the financial statements, the Statement of Value Added (EVA), as supplementary information as it is not mandatory according to IFRS.

The Economic Value Added Statement, aims to demonstrate the value of the wealth generated by the Company and its subsidiaries, its distribution among the elements that contributed to the generation of it, such as employees, lenders, shareholders, government and others, as well as the share of wealth not distributed.

ae) New IFRS, amendments and interpretations issued by IASB applicable to the consolidated financial statements

New accounting pronouncements from the IASB and IFRIC interpretations have been published and / or reviewed and have the optional adoption in June 30, 2011. The Management assessed the impact of these new pronouncements and interpretations and does not anticipate that its adoption will lead to a significant impact on the annual information of the Company and its subsidiaries in the year of initial application. The main pronouncements and interpretations are presented as follows:

Effective:

- IAS 24 Related Party Disclosures (Amendment) It clarified the definition of a related party to simplify the identification of such relationships and to eliminate inconsistencies in its application. The revised standard introduces a partial exemption of disclosure requirements for government related entities. The amended standard is effective for annual periods beginning on or after 1 January 2011. The Company has already adopted in 2010 this IAS.
- IFRIC 14 Prepayments of a minimum funding requirement. This standard applies only to those situations where an entity is subject to minimum funding requirements and anticipated contributions to cover these requirements. The standard allows the entity to account for the benefit of such prepayment as an asset. This standard is effective for fiscal years beginning from January 1, 2011. The changes do not have a significant impact on its consolidated financial statements.
- IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments - IFRIC 19 is effective for annual periods beginning on or after 1 July 2010. The interpretation clarifies that equity instruments issued to a creditor to extinguish a financial liability qualify as consideration paid. The equity instruments issued are measured at their fair value. In case that this cannot be reliably measured, the instruments are measured at the fair value of the liability extinguished. Any gain or loss is recognized immediately in profit or loss. The changes do not have a significant impact on its consolidated financial statements.

Not yet effective:

- IFRS 9 Financial Instruments – Classification and measurement - It reflects the first phase of the IASBs work on the replacement of IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 uses a simplified approach to determine whether a financial asset is measured at amortized cost or fair value, based on the manner in which an entity manages its financial instruments (business model) and the typical contractual cash flow of financial assets. The standard also requires the adoption of only one method for determining losses in recoverable value of assets. The standard is effective for annual periods beginning on or after 1 January 2013. The Company will quantify the effect in conjunction with the other phases, when issued, to present a comprehensive picture.
- IFRS 10 Consolidated Financial Statements - IFRS 10 as issued establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. IFRS 10 replaces the consolidation requirements in SIC-12 *Consolidation—Special Purpose Entities* and IAS 27 *Consolidated and Separate Financial Statements* and is effective for annual periods beginning on or after January 1, 2013. Early application is permitted. The Company is currently analyzing any possible effects arising from the adoption of IFRS 10.

JBS S.A.

Notes to the consolidated financial statements for the six months period ended June 30, 2011 and 2010
(Expressed in thousands of reais)

• IFRS 11 Joint Arrangements - IFRS 11 provides for a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement, rather than its legal form. The standard addresses inconsistencies in the reporting of joint arrangements by requiring a single method to account for interests in jointly controlled entities. IFRS 13 supersedes IAS 31 Interests in Joint Ventures and SIC-13 Jointly Controlled Entities - Non-Monetary Contributions by Ventures, and is effective for annual periods beginning on or after 1 January 2013. Earlier application is permitted. The Company is currently analyzing any possible effects arising from the adoption of IFRS 11.

• IFRS 12 Disclosures of Interests in Other Entities - IFRS 12 is a new and comprehensive standard on disclosure requirements for all forms of interests in other entities, including subsidiaries, joint arrangements, associates and unconsolidated structured entities. IFRS 12 is effective for annual periods beginning on or after 1 January 2013. Earlier application is permitted. The Company is currently analyzing impacts on its disclosures arising from the adoption of IFRS 12.

• IFRS 13 Fair Value Measurement - IFRS 13 establishes new requirements on how to measure fair value and the related disclosures for IFRSs and US generally accepted accounting principles. The standard is effective for annual periods beginning on or after 1 January 2013. Earlier application is permitted. The Company is currently analyzing any possible effects arising from the adoption of IFRS 13.

Other improvements to IFRS – The IASB standards for improvements and amendments to IFRS in May 2010 and the amendments are effective from/after January 1, 2011:

- IFRS 1 – First-Time Adoption of International Financial Reporting Standards.
- IFRS 3 – Business combination.
- IFRS 7 – Financial instrument: Disclosures.
- IAS 1 – Presentation of Items of Other Comprehensive Income
- IAS 12 – Deferred Tax: Recovery of Underlying Assets
- IAS 19 – Employee benefits
- IAS 27 – Consolidated and Separate Financial Statements
- IAS 27 – Investments in associates
- IAS 32 – Classification of rights issues

The Accounting Pronouncement Committee (CPC) has not yet issued these standards or amendments equivalent to the IFRS mentioned above. The Company does not expect material effects on its financial statements from these new standards.

| Cost appropriating on plants for harvest | 2.785 |
| Domestic consumption on plants for harvest (feed) | (1.502) |
| Amount on June 30, 2011 | 516.368 |

Biological assets are composed mainly of live animals, mostly in feedlots which remain in a period about of 90 to 120 days confined to maturity and therefore sent for slaughtering units. For this reason, they are classified as current assets.

According to IAS 41 /CPC 29 - Biological Assets, companies that own agricultural activities, such as grain crops, increased herd (cattle feeding operations and livestock grazing), and various agriculture crops are subject to realize the value of their assets in order to determine the fair value thereof, based on the concept of market value to "Mark to Market - MtM" at least quarterly or annually, recognizing the effects of these comments directly in the income the year. However, the standard shows that, for cases where there is no active market, such as those presented by JBS USA, one or more of the following alternatives for determining the fair value should be adopted:

a) the market price of the most recent transaction, considering that no significant economic change had occurred between the date of the transaction and the closing of the interim consolidated financial statements;

b) market price of similar assets with adjustments to reflect any difference; and

c) industry standards, such as the value of orchard expressed by the value of standard packing for export, acres or hectares, and the value of cattle expressed per kilogram of meat or arroba.

Although the requirements describes there three assumption that the fair value of biological assets can be measured reliably, however, this assumption can be rejected in case of biological assets whose value should be determined by the market, but this is not available and the alternatives for estimating them are clearly not reliable. In such situations, the biological asset should be measured at cost, as presented by JBS USA, less depreciation and any accumulated impairment loss.

| Poultry | 1.197 | 1.250 |
| Total biological assets stated at cost | 363.305 | 312.775 |

As mentioned on the assumption above, the biological assets of the company JBS USA are not be valued at market, adopting the procedures of recovery by absorption costing.

Cattle - JBS USA subsidiary in Australia keeps cattle in feedlot, as there is no reliable market for long-fed cattle in Australia (180 day+). The main feedlot market in Australia is short-fed (75-100 day), (item 30 CPC 29 - Biological Assets).

Pork and Lamb - JBS USA' subsidiary in Australia keeps pigs and lambs in the feedlot system and there is no active market for such activities;

Poultry – PPC is engaged in the poultry activity, however, due to the "maturation" period, which covers the period between the egg until the time of slaughter, is less than 45 days, the cost is close to fair value (item 24 CPC 29 - Biological Assets).

JBS S.A.

Notes to the consolidated financial statements for the six months period ended June 30, 2011 and 2010
(Expressed in thousands of reais)

Operations relating to biological assets of activities in Brazil are integrally represented bovine cattle under feedlot system (intensive), whose valuation at market price is reliably measured due to the existence of an active market.

The balances plants for harvest, consist of corn, soybeans and grass, which will be used in the preparation of ration for cattle. The Management chose to keep the measurement of biological assets at their cost values, due to the immateriality of the balances, since the efforts needed to develop and measure these assets at their fair values overcome the benefits expected by Management.

Value-added tax on sales and services (ICMS / IVA / VAT/GST)

Recoverable ICMS refers to excess of credits derived from purchases of raw materials, packaging and other materials over tax charges due on domestic sales, since exports are tax-exempted.

The Company expects to recover the total amount of the tax credit, including the ICMS credits from other states (difference between the statutory rate for tax bookkeeping and the effective rate for ICMS collection in the state of origin).

Based on studies performed by the Company's management, supported by its legal counsel, ICMS credits, amounting of R\$ 566.515 were segregated in consolidation, according to their realization, from current to noncurrent.

PIS and COFINS (social contribution on net income)

Refers to non-cumulative PIS and COFINS credits arising from purchases of raw materials, packaging and other materials used in the products sold in the foreign market.

IRRF (withholding income tax)

Refers to withholding income tax levied on short-term investments, which can be offset against income tax payable on profits.

General comments

Company and JBS Embalagens recorded the monetary adjustment of their PIS, COFINS and IPI tax credits based on SELIC (Central Bank overnight rate), in the amount of R\$ 148,695 as of this date, the Company received R\$ 28,987, and the remaining balance of R\$ 119,708 is recorded in noncurrent assets consolidated.

Inalca JBS SpA

As of July 7, 2010, JBS S.A. filed an injunction in Italian court, aiming to discuss outstanding issues related to Corporate Governance of Group Cremonini, which on December 22, 2007 JBS acquired 50% of Inalca, forming the Inalca JBS (representing on March 31, 2010, 2.8% of consolidated revenue of JBS).

The remaining issues were mainly related to the failure of certain contractual terms relating to (i) full access to all information and facilities of Inalca JBS and its subsidiaries by board members appointed by JBS (including the Chairman) and (ii) the fulfillment of the contractual clause that delegates to JBS S.A., the appointment of Administrative and Financial Director of Inalca JBS and its subsidiaries, (iii) - full operation of the Internal Audit.

As of August 2, 2010, a request for action in the Chamber was filed with the ICC (International Chamber of Commerce) in Paris (France), to settle any outstanding issues cited in Corporate Governance on Inalca JBS.

JBS S.A.

Notes to the consolidated financial statements for the six months period ended June 30, 2011 and 2010
(Expressed in thousands of reais)

Due to the impossibility to exercise some control functions guaranteed by contract clauses valid under Corporate Governance of Inalca JBS generated doubts about the quality and credibility of accounting information presented in the financial statements.

The Company signed on March 4, 2011, a "Termination Agreement" with the Cremonini Group for dissolution of its 50% of participation in Inalca's capital. Accordingly the terms of Termination Agreement, the Company has returned the shares representing 50% of the Capital Stock of Inalca JBS to the Cremonini Group and the Cremonini Group has simultaneously reimbursed the amount of Euros 218,855 thousands (R\$ 504,002) invested by the Company in 2008. As part of the agreement, the Company and Cremonini have agreed to definitively abandon all disputes and litigation relating to the Companies, their officers and employees.

On December 31, 2010 the Company estimated that such termination agreement, would result in a loss, considering the probable tax effects of approximately R\$ 16,839, (R\$ 25,514 loss and deferred income tax R\$ 8,675), considering the write off of investment, goodwill (intangible assets), debts payable to Cremonini Group and exchange rate variation on investments recorded in shareholders' equity updated until December 31, 2010.

Due to the sale of the investment in the first quarter of 2011 the requirement for the presentation of the investment on Inalca JBS SpA as Discontinued Operations have been achieved.

Under these CVM decisions and the IFRS, intangible assets with indefinite life can no longer be amortized.

Goodwill and intangible assets with no estimated useful lives are tested for impairment at least once a year, in accordance with IFRS 3 (R)/CPC 15 – Business combinations.

Impairment test of goodwill

On December, 2010 the Company tested the recovery of the goodwill using the concept of "value in use" through models of discounted cash flow, representing the group of tangible and intangible assets used in the development and sale of products to its customers.

The process of determining the value in use involves the use of assumptions, judgments and estimates about cash flows, such as rates of revenue growth, costs and expenses, estimates of investment, working capital and discount rates. The assumptions about growth projections, cash flow and future cash flows are based on Management's best estimates, as well as comparable information from market, economic conditions that will exist during the economic life of the group of assets that provides the generation of the cash flows. The future cash flows were discounted based on the representative rate of the cost of capital (WACC).

Consistent with the techniques of economic evaluation, assessment of the value in use is effected for a period of 10 years, and after, considering the perpetuity of the premises in view of the business continuity capability indefinitely. The Management judged appropriate to use the period of 10 years based on their past experience in designing accurately projected cash flows. This understanding is in accordance with paragraph 35 of IAS 36/CPC 01 (R) - Impairment of Assets.

The growth rates used to extrapolate the projections after the period of 10 years ranged from 3% to 4% at year in nominal values. The estimated future cash flows were discounted using discount rates ranging from 9.3% to 10.9% at year, also in nominal values. The principal assumptions used in estimating the value in use are as follows:

- Sales Revenue - Revenues are projected from 2011 to 2020 considering the growth in volume of different products of Cash Generating Units.
- Operating costs and expenses - The costs and expenses were projected accordance with historical performance of the Company and, with the historical growth in revenues. In addition, we considered efficiency gains derived from business combinations of synergies and process improvements.

(Expressed in thousands of reais)

- Capital investment - Investment in capital goods were estimated considering the maintenance of existing infrastructure and expectations required to enable the supply of products.

The key assumptions were based on historical performance of the Company and reasonable macroeconomic assumptions reasoned basis on projections of the financial market, documented and approved by management.

Based on the annual test for impairment of the Company's intangible assets, prepared based on the projections made on the financial statements of December 31, 2010, growth prospects and then follow the projections and results of operations for the three months period ended on June 30, 2011, there were no indications of possible losses or losses, as the estimated market value is higher than the carrying amount at the valuation date.

144-A - It refers to three capture operations by the issuance of 144-A notes in the international market, with a payment term of 10 years performed on the Company as the following: on July 28, 2006, on the amount of R\$ 300 million with a coupon of 10.5% p.a., guaranteed and endorsement by the Company; on July 29, 2010, on the amount of R\$ 900 million, with a coupon of 8.25% p.a., guaranteed endorsement by the Company.

FINAME / FINEM – Financing agreements with BNDES are secured by the assets subject matter of the financing.

ABL (Asset Based Loan) – On May 12, 2011 the subsidiary JBS USA, LLC entered into a credit agreement consisting of a term loan commitment of US\$ 850 million, with a payment term of 5 years and LIBOR + 1.75% per year.

Term Loan B - On May 27, 2011 the subsidiary JBS USA, LLC entered into a credit agreement consisting of a term loan of US\$ 475 million with a payment term of 7 years and LIBOR + 3% per year.

Term Loan A - On July 14, 2011 the indirect subsidiary JBS Five Rivers obtained an US\$ 85 million term loan with a payment term of 5 years and LIBOR + 2.75% per year.

16 Credit operations, guarantees and covenants

On June 30, 2011, the Company was in compliance with all covenants. The main credit operations, guarantees and covenants of the Company and its subsidiaries are described below.

Notes 2016 - JBS S.A. - On August 4, 2006, the Company issued Notes 2016 maturing in 2016, at the principal amount of US\$300 million. The interest rate applicable to the notes is 10.50% per annum and are semiannually paid on February 4 and August 4, beginning on February 4, 2007. The principal amount of the notes should be fully paid by August 4, 2016. Pursuant to the additional indenture dated January 31, 2007, JBS Finance Ltd became a co-issuer of Notes 2016.

JBS S.A.

Notes to the consolidated financial statements for the six months period ended June 30, 2011 and 2010
(Expressed in thousands of reais)

Guarantees: The indenture governing Notes 2016 requires that any significant subsidiary (as defined in the indenture governing the Notes 2016) to guarantee all obligations of the Company as stated in Notes 2016, subject to certain exceptions. Notes 2016 are guaranteed by JBS Hungary Holdings Kft (indirect wholly owned subsidiary of the Company), by JBS USA Holdings, JBS USA, LLC and Swift Beef Company. Other subsidiaries of the Company may be required to guarantee the Notes 2016 in the future.

Covenants. The indenture for the Notes 2016 contains customary negative covenants that limit the Company's ability and the ability of certain subsidiaries to, among other things limits:

- . incur additional debt, if the ratio net debt/EBITDA is higher than a determined index;
- . incur liens;
- . sell or dispose of assets;
- . pay certain dividends and make other payments;
- . permit restrictions on dividends and other restricted payments by our restricted subsidiaries;
- . have certain transactions with related parties;
- . execute lease transactions with repurchase option (sale/leaseback).
- . change the control without making a purchase offer on Notes 2016.

As mentioned above, the terms and conditions for Notes 2016 include covenants. They restrict the Company and its subsidiaries, including JBS USA, to incur any debts (subject to certain permitted exceptions) unless the pro forma net debt / EBITDA ratio of the Company (as defined in the indenture) at the date the debt is incurred is lower than 4.75/1.0.

Again, as mentioned above, Notes 2016 establish restrictions to the Company and its subsidiaries in the execution of certain actions, such as: (i) paying dividends or making any other payments of securities; (ii) paying debts or other obligations; (iii) obtaining loans or advances; or (iv) transferring its properties or assets. Despite that, such payments can be made in certain cases, such as, (a) when there are certain obligations incurred before the issuance of the notes; (b) they are established in law; (c) when the transfer of assets takes place in the normal course of business, or under clauses usually accepted in joint venture agreements executed by the subsidiaries; or (d) when imposed by standard documents of BNDES (National Bank of Economic and Social Development).

Besides, according to Notes 2016, the Company will not be able, directly or indirectly, to declare or pay any dividends or make any distributions related to securities issued by the Company (except for debt instruments convertible or exchangeable for such amounts), if (i) there has been default in relation to the notes 2016; (ii) the Company can incur in at least US\$ 1.00 of debt under the terms of the net debt/EBITDA ratio test established in the indenture of the notes mentioned in the paragraph above; and (iii) the total value to be paid does not exceed 50% of the accrued net income in a certain year or when in a determined year where there is loss, the payment value does not exceed US\$30 million.

Events of default: The indenture of Notes 2016 contains customary events of default. They include non-compliance with or violation of terms, restrictions and other agreements contained in the mentioned instrument, besides default of other debt in case the effect leads to anticipated payment, lack of payment within the grace periods applicable of other debt waived or extended, rendering of unfavorable sentences or court orders against the issuer or its subsidiaries, and certain events related to bankruptcy and insolvency. If an event of default occurs, the trustee or holder of at least 25% of the principal amount of the notes outstanding at the time is entitled to declare immediately payable the principal and accrued interest on the notes.

Bertin's Notes 2016 - Bertin S.A., an enterprise of which the Company is the successor through merger, issued Bertin's Notes 2016 at the principal amount of US\$350 million (under its former corporate name of Bertin Ltda.). The interest applicable to Bertin's Notes 2016 corresponds to 10.25% per annum, paid semiannually on April 5 and October 5, beginning on April 5, 2007. The principal amount of the notes should be fully paid by October 5, 2016.

On December 14, 2009, Bertin successfully concluded a consent solicitation relating to the 2016 Bertin Notes. The consent solicitation (1) amended certain provisions in the indenture governing the 2016 Bertin Notes to conform the provisions to the indenture governing 2016 Notes and (2) amended the change of control provisions to exclude the Bertin merger as an event that would trigger a change of control under the 2016 Bertin Notes. The supplemental indenture implementing these amendments to the 2016 Bertin Notes was executed on December 22, 2009.

Guarantees - The indenture that governs Bertin's Notes 2016 requires that any "material subsidiary" (as defined in the indenture governing Bertin's Notes 2016) to guarantee all obligations of the Company established in Bertin's Notes 2016. They are guaranteed by JBS Hungary Holdings Kft. (indirect wholly-owned subsidiary of the Company). Other subsidiaries of the Company may be required to guarantee the Bertin's Notes 2016 in the future.

Covenants. The indenture of Notes 2016 contains customary negative covenants that limit the Company's ability and the ability of its subsidiaries to, among other things limits:

- . incur additional debt if the net debt/EBITDA ratio is higher than a determined index;
- . incur liens;
- . pay dividends or make certain payments to shareholders;
- . sell or dispose of assets;
- . have certain transactions with related parties;
- . dissolve, consolidate, merge or acquire the business or assets of other entities;
- . execute lease transactions with repurchase option (sale/leaseback);
- . change the company's control without making a purchase offer on Bertin' Notes 2016.
- . in a general manner, limits dividends or other payments to shareholders by restricted subsidiaries.

As indicated above, the terms and conditions for Bertin's Notes 2016 include covenants that restrict the Company (as legal successor of Bertin) and the subsidiaries, to incur any debts (subject to certain permitted exceptions) unless the pro forma net debt / EBITDA ratio of the Company (as defined in the indenture) at the date the debt is incurred is lower than 4.75/1.0.

JBS S.A.

Notes to the consolidated financial statements for the six months period ended June 30, 2011 and 2010
(Expressed in thousands of reais)

Besides, Bertin's Notes 2016 restrict the Company and its subsidiaries from: (i) paying dividends or making any other payments of securities; (ii) paying debts or other obligations; (iii) making loans or advances; or (iv) transferring its properties or assets. Despite that, such payments can be made in certain cases, such as, (a) when there are certain obligations incurred before the issuance of the notes; (b) they are established in law; (c) when the transfer of assets takes place in the normal course of the business, or under clauses usually accepted in joint venture agreements executed by the subsidiaries; (d) when imposed by standard documents of BNDES or other international governmental agencies.

Besides, according to the notes, the Company can only, directly or indirectly, declare or pay any dividends or make any distributions related to securities issued by the Company (except for debt instruments convertible or exchangeable for such amounts), if (i) it is not in default in relation to the notes; (ii) the Company can incur in at least US\$ 1.00 of debt under the terms of the net debt/EBITDA ratio test established in the indenture of the notes mentioned in the paragraph above; and (iii) the total value to be paid does not exceed 50% of the accrued net income in a certain year or when in a determined year where there is loss, the payment value does not exceed US\$ 30 million.

Events of default: The issuance instrument of Bertin's Notes 2016 contains customary events of default. They include non-compliance with or violation of terms, restrictions and other agreements contained in the mentioned instrument, besides default of other debt in case the effect leads to anticipated payment, lack of payment within the grace periods applicable of other debt waived or extended, rendering of unfavorable sentences or court orders against the issuer or its subsidiaries, and certain events related to bankruptcy and insolvency. If an event of default occurs, the trustee or holder of at least 25% of the principal amount of the notes outstanding at the time is entitled to declare immediately payable the principal and accrued interest on the notes.

2017 Vigor Notes - Vigor, a subsidiary following the Bertin merger, issued the 2017 Vigor Notes, in an aggregate principal amount of US\$100.0 million, on February 23, 2007. Interest on the 2017 Vigor Notes accrues at a rate of 9.25% per annum and is payable semiannually in arrears on February 23 and August 23 of each year, beginning on August 23, 2007. The principal amount of the 2017 Vigor Notes is payable in full on February 23, 2017.

On September 24, 2010, the Company successfully concluded a consent solicitation relating to the 2017 Vigor Notes. The consent solicitation (i) amended certain provisions in the indenture governing the 2017 Vigor Notes to conform the provisions to the indenture governing JBS S.A.'s Notes 2018 and (ii) amended the definitions of "Change of Control" and "Permitted Holders" (among others) in the Indenture to substantially conform such definitions to the corresponding definitions set forth in JBS S.A.'s Notes 2018; and (iii) provide for the ability of Vigor (or its successors) to be substituted as the issuer of the Notes, upon the satisfaction of certain conditions.

Covenants. The indenture to the 2017 Vigor Notes contains customary negative covenants that limit the Vigor's ability and the ability of certain of its subsidiaries to, among other things limits:

- . incur additional debt if the net debt/EBITDA ratio is higher than a determined index;
- . incur liens;
- . pay dividends or make certain payments to shareholders;
- . permit restrictions on dividends and other restricted payments by restricted subsidiaries
- . sell or dispose of assets;
- . have certain transactions with related parties;
- . execute lease transactions with repurchase option (sale/leaseback);
- . change the company's control without making a purchase offer on 2017 Vigor Notes.

The indenture governing the 2017 Vigor Notes restricts Vigor and its subsidiaries from incurring any debt (subject to certain permitted exceptions), unless on the date of such incurrence, Vigor's pro forma net debt to EBITDA ratio is less than 4.75/1.0, each as defined and calculated in the indenture governing the 2017 Vigor Notes.

The indenture governing the 2017 Vigor Notes restricts Vigor's ability and the ability of its subsidiaries to declare or pay any dividend or make any distribution on securities issued by us (excluding convertible or exchangeable debt instruments), in the event (1) that an event of default has occurred and continues under the 2017 Vigor Notes; (2) we can incur at least US\$1.00 of debt under the terms of the net debt to EBITDA ratio test; and (3) the total value to be paid does not exceed 50% of the accrued net income in a certain year or when in a determined year where there is loss, reduced 100% of the loss.

Events of default. The indenture also contains customary events of default, including for failure to perform or observe terms, covenants or other agreements in the indenture, defaults on other indebtedness if the effect is to permit acceleration, failure to make a payment on other indebtedness waived or extended within the applicable grace period, entry of unsatisfied judgments or orders against the issuer or its subsidiaries, and certain events related to bankruptcy and insolvency matters. If an event of default occurs, the trustee or the holders of at least 25% in aggregate principal amount of the notes then outstanding may declare such principal and accrued interest on the notes to be immediately due and payable.

Notes 2018 - JBS S.A. - On July 29, 2010, JBS Finance II Ltd., a wholly-owned subsidiary of the Company, issued Notes 2018 maturing in 2018, at the principal amount of US\$700 million and on September 10, 2010, the company issued additional notes at the principal amount of US\$200 million under the indenture of Notes 2018. The interest rate applicable to the notes is 8.25% per annum and are semiannually paid on January 29 and July 29 of each year, beginning January 29, 2011. The principal amount of the Notes 2018 should be fully paid by January 29, 2018.

The Notes 2018 are guaranteed by JBS Hungary Holdings Kft. (indirect wholly-owned subsidiary of the Company) and by the Company.

Covenants. The indenture of Notes 2018 contains customary negative covenants that limit the Company's ability and the ability of certain subsidiaries to, among other things limits:

- . sell or dispose of assets;
- . have certain transactions with related parties;
- . execute lease transactions with repurchase option (sale/leaseback);
- . change the company's control without making a purchase offer on Notes 2018.

As mentioned above, the terms and conditions for Notes 2018 include covenants. They restrict the Company and its subsidiaries, besides JBS USA, to incur any debts (subject to certain permitted exceptions) unless the pro forma net debt / EBITDA ratio of the Company (as defined in the indenture) at the date the debt is incurred is lower than 4.75/1.0.

Again, as mentioned above, Notes 2018 establish restrictions to the Company and its subsidiaries in the execution of certain actions, such as: (i) paying dividends or making any other payments of securities; (ii) paying debts or other obligations; (iii) obtaining loans or advances; or (iv) transferring its properties or assets. Besides, according to Notes 2018, the Company will not be able, directly or indirectly, to declare or pay any dividends or make any distributions related to securities issued by the Company (except for debt instruments convertible or exchangeable for such amounts), if (i) there has been default in relation to the notes 2018; (ii) the Company can incur at least US\$ 1.00 of debt under the terms of the net debt/EBITDA ratio test established in the indenture of the notes mentioned in the paragraph above; and (iii) the total value to be paid does not exceed 50% of the accrued net income in a certain year or when in a determined year where there is loss, reduced 100% of the loss.

Events of default: The indenture of Notes 2018 contains customary events of default. They include non-compliance with or violation of terms, restrictions and other agreements contained in the mentioned instrument, besides default of other debt in case the effect leads to anticipated payment, lack of payment within the grace periods applicable of other debt waived or extended, rendering of unfavorable sentences or court orders against the issuer or its subsidiaries, and certain events related to bankruptcy and insolvency. If an event of default occurs, the trustee or holder of at least 25% of the principal amount of the notes outstanding at the time is entitled to declare immediately payable the principal and accrued interest on the notes.

Guaranteed revolving credit line of J&F Oklahoma - J&F Oklahoma has a US\$600.0 million secured revolving credit facility with a commercial bank. This credit facility and the guarantee thereof are secured solely by the assets of J&F Oklahoma and the net assets of JBS Five Rivers. This credit facility is used to acquire cattle which are then fed in the JBS Five Rivers' feed yards pursuant to the cattle supply and feeding agreement described above. The finished cattle are sold to JBS USA under the cattle purchase and sale agreement discussed above. This facility was amended and restated on September 10, 2010. The amended and restated facility has availability up to US\$800.0 million and matures on September 23, 2014.

On June 14, 2011, J&F Oklahoma and JBS Five Rivers executed a third amended and restated credit agreement to extend availability up to US\$1.0 billion and to add J&F Australia as a borrower under the facility. This amended and restated facility has a maturity date of June 14, 2015 and provides commitments of US\$900.0 million upon closing and an increase of US\$100.0 million on August 10, 2011. At June 30, 2011, with US\$900.0 million as available commitments, J&F Oklahoma was utilizing US\$717.3 million of the facility and had outstanding letters of credit of US\$1.5 million, leaving US\$181.2 million in unused commitments with US\$144.0 million available to be borrowed by J&F Oklahoma according to the terms of the credit agreement.

At December 26, 2010, with US\$750.0 million as available commitments, J&F Oklahoma was utilizing US\$669.0 million of the facility and had outstanding letters of credit of US\$1.5 million, leaving US\$79.5 million in unused commitments with US\$79.1 million available to be borrowed by J&F Oklahoma according to the terms of the credit agreement. Borrowings under the facility bear interest at variable rates based on applicable LIBOR rates plus 2.25%, or based on the prime rate plus 1%. The interest rate at June 30, 2011 was 4.25%.

The credit agreement is collateralized by accounts receivable and inventories of J&F Oklahoma and by certain fixed assets, accounts receivable and inventories of JBS Five Rivers. Among other requirements, the facility requires J&F Oklahoma to maintain certain financial ratios, minimum levels of net worth and establish limitations on certain types of payments, including dividends, investments and capital expenditures. In most instances, the bank considers the combined position and results of J&F Oklahoma along with JBS Five Rivers. Its parent company has entered into a keep-well agreement with its subsidiary (J&F Oklahoma) whereby it will make contributions to J&F Oklahoma if J&F Oklahoma is not in compliance with its financial covenants under this credit facility. If J&F Oklahoma defaults on its obligations under the credit facility and such default is not cured by its parent under the keep-well agreement, JBS Five Rivers is obligated for up to US\$250.0 million of guaranteed borrowings plus certain other obligations and costs under this credit facility. J&F Oklahoma was in compliance with financial covenants under this credit facility as of June 30, 2011.

Revolving line of credit for J&F Oklahoma - JBS Five Rivers is party to an agreement with J&F Oklahoma pursuant to which JBS Five Rivers has agreed to loan up to US\$200.0 million in revolving loans to J&F Oklahoma. The loans are used by J&F Oklahoma to acquire feeder animals which are placed in JBS Five Rivers' feed yards for finishing. Borrowings accrue interest at a per annum rate of LIBOR plus 2.25% and interest is payable at least quarterly. The interest rate at June 30, 2011 was 2.56%. This facility was amended on September 10, 2010 to mature on September 11, 2016. The facility was amended on June 14, 2011 to increase availability under the loan to US\$375.0 million. As of December 31, 2010 and June 30, 2011, outstanding borrowings were US\$111.9 million and US\$206.1 million, respectively.

JBS S.A.

Notes to the consolidated financial statements for the six months period ended June 30, 2011 and 2010
(Expressed in thousands of reais)

Description of Indebtedness of JBS USA

Senior Secured Credit Facility — On November 5, 2008, JBS USA entered into a senior secured revolving credit facility (the "Credit Agreement") that allows borrowings up to US\$400.0 million, and terminates on November 5, 2011. Up to US\$75.0 million of the Credit Agreement is available for the issuance of letters of credit. At December 31, 2010 and June 30, 2011, US\$31.5 million and US\$31.3 million of the availability were used towards letters of credit, respectively. Borrowings that are index rate loans will bear interest at the prime rate plus a margin of 2.25%, the all-in rate as of June 30, 2011 was 5.5%. Upon approval by the lender, LIBOR rate loans may be taken for one, two, or three month terms, (or six months at the discretion of the agent) at LIBOR plus a margin of 3.25%.

Availability. Availability under the Credit Agreement is subject to a borrowing base. The borrowing base is based on certain JBS USA domestic wholly-owned subsidiaries' assets as described below, with the exclusion of JBS Five Rivers. The borrowing base consists of percentages of eligible accounts receivable, inventory and supplies less certain eligibility and availability reserves. As of December 31, 2010 and June 30, 2011, borrowing availability was US\$366.1 million and US\$91.4 million, respectively.

Security and Guarantees. Borrowings made by JBS USA under the Credit Agreement are guaranteed by JBS S.A., JBS USA Holdings and all domestic subsidiaries of JBS USA except JBS Five Rivers. Furthermore, the borrowings are collateralized by a first priority perfected lien and interest in accounts receivable, finished goods and supply inventories of all domestic subsidiaries of JBS USA except JBS Five Rivers.

Covenants. The Credit Agreement contains customary representations, warranties and a springing financial covenant that requires a minimum fixed charge coverage ratio of not less than 1.15 to 1.00. This ratio is only applicable if borrowing availability falls below the minimum threshold, which is the greater of 20% of the aggregate commitments or US\$70.0 million. The Credit Agreement also contains negative covenants that limit the ability of JBS USA and certain of its subsidiaries to, among other things limits:

- have capital expenditures greater than US\$175.0 million per year, plus 50% of unused permitted capital expenditures from the preceding year;
- incur additional indebtedness;
- create liens on property, revenue or assets;
- make certain loans or investments;
- sell or dispose of assets;
- pay certain dividends and other restricted payments;
- prepay or cancel certain indebtedness;
- dissolve, consolidate, merge or acquire the business or assets of other entities;
- enter into joint ventures other than certain permitted joint ventures or create certain other subsidiaries;
- enter into new lines of business;
- enter into certain transactions with affiliates and certain permitted joint ventures;
- agree to restrictions on the ability of the subsidiaries to make dividends;
- agree to enter into negative pledges in favor of any other creditor; and
- enter into sale/leaseback transactions and operating leases.

The Credit Agreement also contains customary events of default, including failure to perform or observe terms, covenants or agreements included in the Credit Agreement, payment of defaults on other indebtedness, defaults on other indebtedness if the effect is to permit acceleration, entry of unsatisfied judgments or orders against a loan party or its subsidiaries, failure of any collateral document to create or maintain a priority lien, and certain events related to bankruptcy and insolvency or environmental matters. If an event of default occurs the lenders may, among other things, terminate their commitments, declare all outstanding borrowings to be immediately due and payable together with accrued interest and fees and exercise remedies under the collateral documents relating to the Credit Agreement. At June 30, 2011, JBS USA was in compliance with all covenants.

On April 27, 2009, the Credit Agreement was amended to allow the execution of the US\$700.0 million senior unsecured notes due 2014 described below. Under the amendment, the existing limitation on distributions between JBS USA and JBS USA Holdings was amended to allow the proceeds of the senior unsecured notes due 2014, less transaction expenses and US\$100.0 million retained by JBS USA, to be remitted to JBS USA Holdings as a one-time distribution. Also, the unused line fee was increased from 37.5 basis points to 50.0 basis points.

On September 11, 2009, the Credit Agreement was amended to modify the change of control definition so that JBS S.A. is required to own, directly or indirectly, more than 50% rather than 100% of the capital stock of JBS USA Holdings. In addition, the amendment excludes capital expenditures that are financed with initial public offering proceeds from the fixed charge coverage ratio covenant calculation and any capital expenditures and acquisitions that are financed with such proceeds are not subject to the respective covenant limitations in the Credit Agreement. Finally, the aggregate amount of permitted capital leases was increased from US\$25.0 million to US\$50.0 million.

On May 7, 2010, the Credit Agreement was amended and restated ("Amended and Restated Credit Agreement") to allow JBS USA Holdings to make acquisitions with proceeds from an equity contribution or loan from JBS S.A. or a subsidiary of JBS S.A. that is not a subsidiary of JBS USA Holdings. In addition, the permitted acquisitions requirements under the Amended and Restated Credit Agreement for such acquisitions as well as acquisitions financed with any potential initial public offering proceeds of JBS USA Holdings have been modified. Furthermore, any capital expenditures that are financed with such proceeds are not subject to the covenant limitations in the Amended and Restated Credit Agreement. Finally, the aggregate amount of permitted capital leases and fixed asset indebtedness was increased from US\$50.0 million to US\$100.0 million.

JBS S.A.

Notes to the consolidated financial statements for the six months period ended June 30, 2011 and 2010
(Expressed in thousands of reais)

On July 27, 2010, JBS USA executed an amendment to the Amended and Restated Credit Agreement to permit JBS USA Holdings to guarantee any new debt issuances by JBS S.A. or its subsidiaries with certain exceptions.

On May 16, 2011, JBS USA executed an amendment to the Amended and Restated Credit Agreement to permit JBS USA to issue the 7.250% senior unsecured notes due 2021 and enter into the US\$475 million term loan due 2018, both described below. The amendment also recognized the resignation of General Electric Capital Corporation as the agent and effective June 10, 2011, JPMorgan Chase Bank, N.A. assumed the role of agent for the facility.

Installment note payable – The installment note payable relates to JBS USA financing of a capital investment. The note bears interest at LIBOR. The rate as of June 30, 2011 was 0.21% plus a fixed margin of 1.75% per annum with payments due on the first of each month. The note matures on August 1, 2013.

Unsecured credit facility – JBS Australia entered into an Australian dollar ("A\$") denominated A\$120.0 million unsecured credit facility on February 26, 2008 to fund working capital needs and letter of credit requirements. This facility terminated on October 1, 2009 with the A\$40.0 million letter of credit facility extended to June 30, 2010. On May 5, 2010, the facility was revised to reflect current letters of credit requirements to a facility limit of A\$1.9 million and is subject to an annual review starting June 30, 2011.

Intercompany loans – From October 26, 2009 through April 28, 2010, JBS USA made eight intercompany loans to JBS Australia totaling US\$167.0 million to fund working capital needs and general corporate purposes. Each loan had a one year maturity with interest at the three-month LIBOR plus a fixed margin of 5% per annum. While these loans eliminate upon consolidation, the loans were denominated in USD, but reported by our Australian subsidiary in AUD. Therefore, the loans generated foreign currency transaction gains or losses due to fluctuations in the period end AUD to USD exchange rate. On May 4, 2010, the loans payable and related interest were paid in full and the agreements were terminated.

A\$250 million revolving loan payable between JBS USA and JBS Australia – On May 4, 2010, JBS USA issued a long-term intercompany revolving promissory note to JBS Australia for A\$250.0 million with interest based on the three-month Bank Bill Swap Bid Rate ("BBSY") plus 3% and a maturity date of May 4, 2012 to fund working capital needs and general corporate purposes (Note 28). On November 9, 2010, the note was amended to increase the maximum amount of advances to A\$350.0 million. On February 2, 2011, the note was amended to increase the maximum amount of advances to A\$400.0 million. While these loans eliminate upon consolidation, the loans are denominated in AUD, but reported by JBS USA in USD. Therefore, the loans generate foreign currency transaction gains or losses due to fluctuations in the period end AUD to USD exchange rate. The average interest rate at June 30, 2011 was 7.77%.

A\$50 million revolving loan receivable from JBS Australia – On May 4, 2010, JBS USA Holdings issued an intercompany revolving promissory note to JBS Australia for A\$50.0 million with interest based on the three-month BBSY plus 3% and a maturity date of May 4, 2012 to fund working capital needs and general corporate purposes. While these loans eliminate upon consolidation, the loans are denominated in AUD, but reported by JBS USA Holdings in USD. Therefore, the loans generate foreign currency transaction gains or losses due to fluctuations in the period end AUD to USD exchange rate. As of December 31, 2010, outstanding borrowings were approximately US\$10.3 million. There were no outstanding borrowings at June 30, 2011.

US\$50 million revolving loan receivable from JBS USA – On April 19, 2010, JBS USA Holdings issued an intercompany revolving promissory note to JBS USA with interest based on the three-month LIBOR plus a fixed margin of 2.5% and a maturity date of March 31, 2012 to fund working capital needs and general corporate purposes. There were no outstanding borrowings at December 31, 2010 or June 30, 2011. The interest rate at June 30, 2011 was 2.80%.

US\$50 million loan receivable from JBS Five Rivers - On May 27, 2011, JBS USA issued a US\$50.0 million intercompany loan to JBS Five Rivers with interest based on the three-month LIBOR plus 225 basis points and a maturity date of May 27, 2012. While this loan eliminates upon consolidation, on June 22, 2011, the outstanding principal and accrued interest were paid in full.

On June 2, 2011, JBS USA issued a US\$2.0 billion revolving intercompany note to JBS USA Holding, which used these funds to distribute US\$850.0 million to JBS S.A. to fund the repayment of short and medium-term debt of JBS S.A. The note bears interest at a variable per annum rate equal to LIBOR plus 300 basis points payable annually. Principal and interest are payable upon demand by JBS USA at any time on or after June 2, 2012. The interest rate at June 30, 2011 was 3.25%. JBS USA Holdings recognized US\$1.7 million of interest expense on the note for both the thirteen and twenty-six weeks ended June 30, 2011. The outstanding borrowings of US\$942.2 million plus interest expense of US\$1.7 million are eliminated upon consolidation.

On June 23, 2011, PPC entered into the Subordinated Loan Agreement (the "Subordinated Loan Agreement") with JBS USA Holdings which provided an aggregate commitment of US\$100.0 million. On June 23, 2011, JBS USA Holdings made a term loan to PPC in the principal amount of US\$50.0 million. In addition, JBS USA Holdings agreed to make an additional one-time term loan of US\$50.0 million if PPC's availability under the revolving loan commitment is less than US\$200.0 million at any time. The commitment, under the Subordinated Loan Agreement, will terminate on the earliest to occur of (i) date on which all Exit Credit Facilities are due and payable in accordance with its terms or (ii) June 27, 2015. Loans under the Subordinated Loan Agreement mature on June 28, 2015. The outstanding borrowings of US\$50.0 million plus accrued interest of US\$55 thousand are eliminated upon consolidation.

Unsecured term loan facility – On February 12, 2010, JBS Australia entered into an unsecured US\$10.0 million facility with Banco Santander. The loan bears interest at the three-month LIBOR plus a fixed margin of 3% per annum. There were no outstanding borrowings at June 30, 2011.

4.39% secured notes due 2019 – JBS USA and JBS Plainwell, issued 4.39% notes due 2019 in an aggregate principal amount of US\$16.0 million on December 20, 2010 to finance construction of a cold storage warehouse. Interest is payable quarterly beginning April 1, 2011. Principal is payable quarterly beginning October 1, 2011. The proceeds are restricted as to use and were deposited directly into two escrow accounts. The funds are classified as restricted cash in the Condensed Consolidated Balance Sheets. At both December 31, 2010 and June 30, 2011 the balance in restricted cash related to the 4.39% secured notes due 2019 was US\$16.0 million.

Marshalltown NMTC – On March 10, 2011, Swift Pork entered into the Marshalltown NMTC transaction to finance construction of a distribution center (see Note 3). Swift Pork borrowed US\$9.8 million at 2.34% annual interest payable monthly for seven years. Of the total amount borrowed, US\$7.2 million ("Loan A") was indirectly funded by JBS USA through a leverage loan and is included in judicial deposits and other within the Condensed Consolidated Balance Sheets. The remaining US\$2.6 million ("Loan B") was funded by a local community development entity. At the end of the seven year period there is an option to dissolve the transaction through a put option with an exercise price of US\$1 thousand or a call option with an exercise price which will be calculated at its fair market value. If the put or call option is not exercised then Loan A will begin to amortize over the remaining 28 years, with principal and interest due monthly and a balloon payment for the remaining principal due March 2046. Loan B will continue to have interest only payments through 2046 at which time principal and interest are due.

Tasmanian government loan – On September 2, 2010, JBS Australia and JBS Southern Australia Pty. Ltd. entered into a secured facility which provides up to A\$12.0 million with the Tasmanian Government (Tasmania Development and Reserve, the "Department"), to fund a capital investment at JBS Australia's processing plant located in King Island, Tasmania. Funding is available in three tranches of A\$3.6 million, A\$3.6 million and up to A\$4.8 million. Loans are payable on the 22nd of the month following the 15th anniversary of each tranche's initial drawdown. Funds were drawn on October 4, 2010, November 8, 2010 and May 17, 2011, respectively.

Each loan is interest payment free for the initial three years, then bears interest at the Department's cost of funds for years four through nine and then for years 10 through 15 bears interest at the Department's variable commercial rate. Upon initial drawdown, interest expense is accrued monthly at the estimated average rate for the life of the loan and is payable upon notice by the Department or in conjunction with the repayment of principal after the three year period. The debt is secured by certain fixed assets at JBS Australia's processing plant located in Rockhampton, Queensland and is subject to standard debt covenants. The estimated average interest rate at June 30, 2011 was 8.50%.

Corporate building loan assumption – In October 2010, JBS USA Holdings acquired its corporate headquarters in Greeley, Colorado. It paid US\$9.2 million in cash and assumed US\$20.1 million in mortgage debt. The debt is comprised of two mortgages in the amounts of US\$3.1 million and US\$17.0 million. The mortgages accrue interest at annual rates of 5.75% and 8.35%, respectively, and are repayable in monthly installments over 10 and 14 years, beginning November 1, 2010. During the thirteen weeks ended December 31, 2010, US\$0.6 million of expenses related to this transaction were capitalized as part of the building.

Credit facility to Sampco – On April 1, 2010, JBS USA Holdings executed a US\$60.0 million related party revolving promissory note with Sampco, Inc. ("Sampco"), an indirect wholly-owned subsidiary of JBS S.A., with interest based on the three-month LIBOR plus a margin of 2.5% and a maturity date of March 31, 2012. JBS USA Holdings recognized US\$0.2 million of interest income on the Sampco note for both the thirteen and twenty-six weeks ended June 27, 2010. Due to the Bertin Contribution, as of June 30, 2011, the outstanding borrowings of US\$24.6 million plus accrued interest of US\$31 thousand are eliminated upon consolidation.

Credit facility to JBS USA Trading – On April 1, 2010, JBS USA Holdings executed a US\$15.0 million related party revolving promissory note with JBS USA Trading, Inc. ("JBS USA Trading"), formerly known as SB Holdings, Inc., doing business as The Tupman Thurlow Co., Inc., an indirect wholly-owned subsidiary of JBS S.A., with interest based on the three-month LIBOR plus a margin of 2.5% and a maturity date of March 31, 2012. The note was amended and restated on April 15, 2010 to increase the maximum borrowings to US\$25.0 million. JBS USA Holdings recognized US\$113 thousand of interest income on the JBS USA Trading note for both the thirteen and twenty-six weeks ended June 30, 2010. Due to the Bertin Contribution, as of June 30, 2011, the outstanding borrowings of US\$7.9 million plus accrued interest of US\$83 thousand are eliminated upon consolidation.

Credit facility to Bertin USA – On April 15, 2010, JBS USA Holdings executed an US\$11.0 million related party revolving promissory note with Bertin USA, a direct wholly-owned subsidiary of JBS S.A., with interest based on the three-month LIBOR plus a margin of 2.5% and a maturity date of March 31, 2012. JBS USA Holdings recognized US\$38 thousand of interest income on the Bertin USA note for both the thirteen and twenty-six weeks ended June 30, 2010. Due to the Bertin Contribution, as of June 30, 2011, the outstanding borrowings of US\$6.0 million plus accrued interest of US\$61 thousand are eliminated upon consolidation.

11.625% senior unsecured notes due 2014 – On April 27, 2009, JBS USA Holdings' wholly-owned subsidiaries JBS USA and JBS USA Finance, Inc. issued 11.625% notes due 2014 in an aggregate principal amount of US\$700.0 million. These notes are guaranteed by JBS USA Holdings, JBS S.A., JBS Hungary Holdings Kft., and each of the US restricted subsidiaries that guarantee the Credit Agreement (subject to certain exceptions). Interest on these notes accrues at a rate of 11.625% per annum and is payable semi-annually in arrears on May 1 and November 1 of each year, beginning on November 1, 2009. The principal amount of these notes is payable in full on May 1, 2014. The original issue discount of approximately US\$48.7 million is being accreted over the life of the notes.

Covenants. The indenture for the 11.625% senior unsecured notes due 2014 contains customary negative covenants that limit JBS USA and its restricted subsidiaries' ability to, among other things:

- incur additional indebtedness, based on net debt to EBITDA ratio;
- incur liens;
- sell or dispose of assets;
- pay dividends or make certain payments to our shareholders;
- permit restrictions on dividends and other restricted payments by its restricted subsidiaries;
- enter into related party transactions;
- enter into sale/leaseback transactions; and
- undergo changes of control without making an offer to purchase the notes.

Events of default. The indenture also contains customary events of default, including failure to perform or observe terms, covenants or other agreements in the indenture, defaults on other indebtedness if the effect is to permit acceleration, failure to make a payment on other indebtedness waived or extended within the applicable grace period, entry of unsatisfied judgments or orders against the issuer or its subsidiaries and certain events related to bankruptcy and insolvency matters. If an event of default occurs, the trustee or the holders of at least 25% in aggregate principal amount of the notes then outstanding may declare such principal and accrued interest on the notes to be immediately due and payable. At June 30, 2011, JBS USA and JBS USA Finance, Inc. were in compliance with all covenants.

7.250% senior unsecured notes due 2021 - On May 27, 2011, JBS USA Holdings' wholly-owned subsidiaries JBS USA and JBS USA Finance, Inc. issued 7.250% notes due 2021 in an aggregate principal amount of US\$650.0 million primarily to make an intercompany loan to the JBS USA Holdings, for further transfer to JBS S.A. to fund the repayment of short and medium-term debt of JBS S.A. These notes are guaranteed by JBS USA Holdings, JBS S.A., JBS Hungary Holdings Kft., and each of the US restricted subsidiaries that guarantee the Credit Agreement (subject to certain exceptions). If certain conditions are met, the Parent Guarantors may be released from their guarantees. Interest on these notes accrues at a rate of 7.250% per annum and is payable semi-annually in arrears on June 1 and December 1 of each year, beginning on December 1, 2011. The principal amount of these notes is payable in full on June 1, 2021. The original issue discount of approximately US\$11.3 million is being accreted over the life of the notes.

US\$475 million term loan due 2018 - On May 27, 2011, JBS USA entered into a credit agreement consisting of a term loan commitment of US\$475.0 million primarily to make an intercompany loan to JBS USA Holdings, for further transfer to JBS S.A. to fund the repayment of short and medium-term debt of JBS S.A. Loans under this agreement may be either Alternate Base Rate ("ABR") loans or Eurodollar loans at the election of JBS USA. Interest on Eurodollar loans is payable at the end of the associated interest period while interest on ABR loans is payable the last day of each calendar quarter. Commencing on September 20, 2011 and continuing until maturity, 0.25% of the initial principal amount of US\$475.0 million will be payable on the last business day of each calendar quarter. The outstanding principal is payable on May 25, 2018. The original issue discount of approximately US\$2.4 million is being accreted over the life of the loan.

US\$85 million term loan due 2016 - On June 14, 2011, JBS Five Rivers obtained an US\$85.0 million term loan which has a maturity date of June 14, 2016. Repayment of the term loan is required to be made in 20 quarterly installments in the amount of US\$1.4 million on the last day of each calendar quarter, with the remaining unpaid principal balance due upon maturity. Borrowings under the term loan bear interest at variable rates based on applicable LIBOR rates plus 2.75%, or based on the prime rate plus 1.5%. The proceeds from the term loan were advanced to J&F Oklahoma Holdings, Inc. ("J&F Oklahoma") under the note receivable from J&F Oklahoma. The term loan is secured by certain fixed assets, accounts receivable and inventories of JBS Five Rivers and accounts receivable and inventories of J&F Oklahoma. J&F Oklahoma is a guarantor under the term loan agreement and while it is possible that J&F Oklahoma would be required to repay the outstanding balance and certain other obligations and costs under the term loan as part of its guarantee, it is not probable at this time.

Dividend Restrictions - Certain covenants of indebtedness and debt guarantee terms include restrictions on our ability to pay dividends, make loans or advances. As of December 31, 2010 and June 30, 2011, JBS USA Holdings had US\$397.4 million and US\$453.6 million, respectively, of retained earnings available to pay dividends.

Description of Indebtedness of PPC

On December 28, 2009, PPC used the proceeds received from borrowing under the Exit Credit Facility (see below) and available cash to repay indebtedness under its prior credit agreements in the amount of US\$1.4 billion. PPC also used the proceeds received from the sale of 64% of the outstanding common stock of the reorganized PPC to repay indebtedness under the Senior Unsecured Notes totaling US\$651.9 million.

Senior Unsecured Notes due 2018 - On December 15, 2010, PPC closed on the sale of US\$500.0 million of 7 7/8% Senior Notes due 2018 (the "2018 Notes"). The 2018 Notes are unsecured obligations of PPC are guaranteed by one of PPC's subsidiaries.

Interest is payable on December 15 and June 15 of each year, commencing on June 15, 2011. The proceeds from the sale of the notes, after initial purchaser's discounts and expenses, were used to repay all indebtedness outstanding under the Term A loan commitments of the Exit Credit Facility and to repay a portion of the indebtedness outstanding under the Term B-1 loans commitments of the Exit Credit Facility. The indenture governing the 2018 Notes contains various covenants that may adversely affect PPC's ability, among other things, to incur additional indebtedness, incur liens, pay dividends or make certain restricted payments, consummate certain asset sales, enter into certain transactions with JBS USA Holdings and PPC's other affiliates, merge, consolidate and/or sell or dispose of all or substantially all of their assets.

Senior Unsecured Note - PPC has indebtedness under Senior Notes due in 2015 bearing interest at a rate of 7 5/8%.

Senior Subordinated Unsecured Notes - PPC has indebtedness under senior subordinated notes due in 2017 bearing interest at 8 3/8%. PPC has indebtedness under senior subordinated notes due in 2013 bearing interest at 9 1/4%.

Exit Credit Facility - Upon exiting from bankruptcy, PPC and certain of its subsidiaries entered into the Exit Credit Facility. This facility provided for an aggregate commitment of US\$1.8 billion consisting of a revolving loan commitment of US\$600.0 million, a Term A loans commitment ("Term A") of US\$375.0 million and a Term B loans commitment ("Term B") of US\$775.0 million. The Exit Credit Facility also includes an accordion feature that allows PPC at any time to increase the aggregate revolving loan commitment by up to an additional US\$250.0 million and to increase the aggregate Term B loans commitment by up to an additional US\$400.0 million, in each case subject to the satisfaction of certain conditions, including an aggregate cap on all commitments under the Exit Credit Facility of US\$1.9 billion.

JBS S.A.

Notes to the consolidated financial statements for the six months period ended June 30, 2011 and 2010
(Expressed in thousands of reais)

The Term A loan was repaid on December 15, 2010 with proceeds from the 7 7/8% Senior Notes discussed below. On January 13, 2011, PPC increased the amount of the revolving loan commitments under the Exit Credit Facility to US\$700.0 million. The revolving loan commitment and the Term B loans will mature on December 28, 2014.

Subsequent to the end of each fiscal year, a portion of PPC's cash flow must be used to repay outstanding principal amounts under the Term B loans. In April 2011, PPC paid approximately US\$46.3 million of its excess cash flow toward the outstanding principal under the Term B loans. After giving effect to this prepayment and other prepayments of the Term B loans, the Term B loans must be repaid in 16 quarterly installments of approximately US\$3.9 million beginning on April 15, 2011, with the final installment due on December 28, 2014. The Exit Credit Facility also requires PPC to use the proceeds it receives from certain asset sales and specified debt or equity issuances and upon the occurrence of other events to repay outstanding borrowings under the Exit Credit Facility.

Actual borrowings by PPC under the revolving credit commitment part of the Exit Credit Facility are subject to a borrowing base, based on certain eligible inventory, eligible receivables and restricted cash under the control of the Exit Credit Facility agent. The borrowing base formula is reduced by the sum of inventory reserves, rent and collateral access reserves, and any amount more than 15 days past due that is owed by PPC or its subsidiaries to any person on account of the purchase price of agricultural products or services (including poultry and livestock) if that person is entitled to any grower's or producer's lien or other security arrangement. Revolving loan availability under the borrowing base is also limited to an aggregate of US\$25.0 million with respect to To-Ricos as joint borrower. As of June 30, 2011, the applicable borrowing base was US\$700.0 million and the amount available for borrowing under the revolving loan commitment was US\$279.8 million.

The Exit Credit Facility includes a US\$50.0 million sub-limit for swingline loans (loans with same day availability), and a US\$200.0 million sub-limit for letters of credit. On April 14, 2011, PPC increased the amount of the sub-limit for swingline loans under the Exit Credit Facility to US\$100.0 million. Outstanding borrowings under the revolving loan commitment bear interest at a per annum rate equal to 3.0% plus the greater of the US prime rate, the average federal funds rate plus 0.5%, and the one-month LIBOR rate plus 1.0%, in the case of alternate base rate loans, or 4.0% plus the one, two, three or six-month LIBOR rate adjusted by the applicable statutory reserve, in the case of Eurodollar loans.

Outstanding Term B-1 loans bear interest at a per annum rate equal to 3.5% plus greater of the US prime rate, the average federal funds rate plus 0.5%, and the one month LIBOR rate plus 1.0%, in the case of alternate base rate loans, or 4.5%, plus the one, two, three or six-month LIBOR Rate adjusted by the applicable statutory reserve, in the case of Eurodollar loans.

Outstanding Term B-2 loans bear interest at a per annum rate equal to 9.0%. Commitment fees charged on the revolving commitments under the Exit Credit Facility accrue at a per annum rate equal to 0.5%.

The Exit Credit Facility provides that PPC may not incur capital expenditures in excess of US\$275.0 million in 2011 and US\$350.0 million per fiscal year thereafter. PPC must also maintain a minimum fixed charge coverage ratio and a minimum level of tangible net worth and may not exceed a maximum leverage ratio. The Exit Credit Facility contains various covenants that restrict PPC's ability to, among other things, incur additional indebtedness, incur liens, pay dividends or make certain restricted payments, consummate certain asset sales, enter into certain transactions with JBS USA Holdings and other affiliates, merge, consolidate and/or sell or dispose of all or substantially all of PPC's assets.

Under the Exit Credit Facility, the Company, PPC's majority stockholder, or its affiliates may make loans to PPC on a subordinated basis on terms reasonably satisfactory to the agents under the Exit Credit Facility and up to US\$200.0 million of such subordinated indebtedness may be included in the calculation of EBITDA (as defined in the Exit Credit Facility).

On June 23, 2011, PPC entered into an amendment to the Exit Credit Facility, which, among other things, temporarily suspended the requirement for PPC to comply with the fixed charge coverage ratio and senior secured leverage ratio financial covenants until September 23, 2012 and modified the consolidated tangible net worth financial covenant. PPC is currently in compliance with the required tangible net worth covenant. However, if chicken prices and feed ingredient prices fail to improve relative to current levels, PPC's ability to maintain compliance with this financial covenant could be materially jeopardized.

All obligations under the Exit Credit Facility are unconditionally guaranteed by certain of PPC's subsidiaries and are secured by a first priority lien on the domestic (including Puerto Rico) accounts receivable and inventory of PPC and its subsidiaries; 100% of the equity interests in the To-Ricos Borrowers and PPC's domestic subsidiaries and 65% of the equity interests in PPC's direct foreign subsidiaries; substantially all of the personal property and intangibles of PPC, the To-Ricos Borrowers and the guarantor subsidiaries; and substantially all of the real estate and fixed assets of PPC and the subsidiary guarantors.

ING Credit Agreement - On September 25, 2006, a subsidiary of PPC, Avícola Pilgrim's Pride de México, S. de R.L. de C.V. (the "Mexico Borrower"), entered into a secured revolving credit agreement (the "ING Credit Agreement") with ING Capital, LLC, as agent (the "Mexico Agent") and the lenders party thereto (the "Mexico Lenders"). The ING Credit Agreement has a revolving commitment of 557.4 million Mexican pesos, a US dollar-equivalent US\$45.1 million at December 31, 2010. The ING Credit Agreement has a revolving commitment of 557.4 million Mexican pesos, a US dollar-equivalent US\$46.8 million at June 30, 2011.

Outstanding amounts under the ING Credit Agreement bear interest at a rate per annum equal to the LIBOR Rate, the Base Rate or the TIIE Rate, as applicable, plus the Applicable Margin (as those terms are defined in the ING Credit Agreement).

The ING Credit Agreement requires PPC to make a mandatory prepayment of the revolving loans in an aggregate amount equal to 100% of the net cash proceeds received by certain Mexico subsidiaries of PPC (the "Mexico Subsidiaries"), as applicable, in excess of thresholds specified in the ING Credit Agreement, from the sale of certain assets by the Mexico Subsidiaries; from any casualty or other insured damage to, or any taking under power of eminent domain or by condemnation or similar proceedings of, any property or asset of any Mexico Subsidiaries; or from the incurrence of certain indebtedness by the Mexico Subsidiary. Any such mandatory prepayments will permanently reduce the amount of the commitment under the ING Credit Agreement. The Mexico Subsidiaries pledged substantially all of their receivables, inventory and equipment and certain fixed assets. The Mexico Subsidiaries were excluded from the US bankruptcy proceedings.

17 Convertible debentures

The Company received on December 22, 2009 correspondence from BNDES Participações SA - BNDESPAR, communicating the approval of the investment conduct through the subscription of subordinated debentures, convertible into shares and transfer clause of the first private placement the Company to be held in single series.

The Agreement Investment signature was approved by the Board of Directors in a resolution held on December 7, 2009.

The funds were fully used to subscribe a capital increase in JBS USA, in order to complete the transaction reflected in the Stock Purchase Agreement whereby the JBS USA, by subscription of new shares, became the owner of shares representing 64% (sixty-four per cent) of the total voting capital of PPC and strengthen the capital structure consolidated by the Company for implementation of investment plans and expansion projects, and enable the completion of the integration of operations with Bertin.

On December 28, 2009, the Company issued 2,000,000 debentures at the unit per value of R\$ 1,739.80. The total value of the debentures was R\$3,479,600. Issuance and transaction costs corresponded to R\$17,388, and there was no premium in this fund raising operation. Under the terms of the indenture, the debentures corresponded to US\$2 billion at issuance date. The 2,000,000 debentures were obligatorily exchangeable for certificates of deposit of securities (Brazilian Depositary Receipt - BDR) sponsored Level II or III, supported by voting common shares issued by JBS USA Holdings, Inc., or obligatorily convertible into shares issued by the Company, in the event the latter did not have liquidity.

Liquidity event meant to combine the completion of an initial public offering of JBS USA, in the minimum amount equivalent to US\$ 1,5 billion with primary placement of at least 50%, either through IPO or follow-on, where JBS USA (a) would become a Reporting company with the Securities and Exchange Commission, (b) would have shares listed on the New York Stock Exchange or NASDAQ, (c) would have a minimum free float (excluding potential involvement of debenture holders) of 15% and (d) that the capital of JBS USA, on the day of the liquidity event, would be composed of single species and class stocks, noting that would be allowed to issue classes of preferred shares with different political rights after the liquidity event.

The maturity of the debentures were 60 years from the issuance date, on December 28, 2069.

Due to the end of the deadline for apportionment of surplus in the issuance of debentures, on February 19, 2010, the Company communicated, based on the information received from bank Bradesco S.A., depository institution of the Company's debentures, that all debentures issued were subscribed, as approved during a general extraordinary meeting held on December 31, 2009 at the Company.

Each debenture could only be converted into shares of the Company, exclusively in the following cases: (i) if the Liquity Event has not occurred within the period established in the indenture, (ii) in case certain requirements described in the indenture are not met, or (iii) in the occurrence of an Anticipated Expiration as established in the indenture. The number of common shares issued by the Company in the conversion of the debentures is based on the division of (a) their unit par value, plus a prize of 10% (ten percent); and (b) a conversion price based on the weighted average of the price of the common shares in negotiation ("JBSS3") in the 60 (sixty) trading sessions before date of conversion of the debentures. Such average should be adjusted for the declared proceeds, limited to a floor of R\$6.50 (six reais and fifty cents) per share action and a ceiling of R\$12.50 (twelve reais and fifty cents) per share ("Conversion into Shares").

Shareholders agreement

On December 22, 2009 the Company celebrated a Shareholder Agreement with J&F Participações S.A., ZMF Fundo de Investimento and BNDES PARTICIPAÇÕES - BNDESPAR, where BNDESPAR assumed commitment of accomplishing an investment in the Company through the subscription of debentures of the Company, as detailed above.

During the term of the Shareholders' Agreement, and while it continues being an Eligible Shareholder, the shareholder BNDESPAR would be entitled to interfering in any of the matters mentioned below (each one is an "Approval Item"):

(i) contracting by the Company and/or by any of its subsidiary companies of any debt (except in relation to refinancing of debt or already existing obligation, or debt between companies of the same group that do not affect the Maximum Debt Limit), implying that the ratio of the division between the Net Debt and EBITDA (in both cases related to the last four quarters, according to the quarterly or annual consolidated financial statements of the Company) calculated on a pro forma basis is higher than 5.5 ("Maximum Debt Limit");

(ii) the distribution of dividends, interest on equity capital or any other form of compensation to the shareholders by the Company, implying that the ratio of the division between Net Debt and EBITDA (in both cases related to the last four quarters, according to the quarterly or annual consolidated financial statements of the Company) calculated on a pro forma basis and after distribution, is higher than 4.0 ("Managerial Indebtedness Limit");

(iii) a reduction in the capital stock of the Company, of JBS USA and/or of any of their respective subsidiary companies, that, if executed, would exceed the Managerial Indebtedness Limit. Exceptions to this restriction are the subsidiary companies whose capital stock is directly or indirectly held by JBS in a percentage equal to or higher than 99% ("Exempt subsidiary Companies");

(iv) proposition of an extrajudicial recovery plan, judicial recovery plan or filing of bankruptcy by the Company or by JBS USA;

(v) liquidation or dissolution of JBS, of JBS USA or of any of their subsidiary companies (except for Exempt subsidiary Companies);

(vi) reduction in JBS's obligatory dividends;

(vii) amendments to article 33 of JBS's by-laws, so that the audit committee would start working in a non-permanent manner or any other changes in the by-laws of JBS regarding the business purpose (aiming a significant change in the business carried out by JBS), or other changes that conflict with any dispositions of the Shareholders' Agreement;

JBS S.A.

Tax Proceedings

a) ICMS - Value Added Tax (Imposto sobre Operações Relativas à Circulação de Mercadorias e sobre a Prestação de Serviços de Transporte Interestadual e Intermunicipal e de Comunicação)

The Tax Authority of the State of São Paulo (Secretaria da Fazenda do Estado de São Paulo) filed several administrative proceedings against the Company, under which the Tax Authority challenges the amount of the Company's ICMS tax credits arising from the purchase of cattle and meat transfer by the Company in other Brazilian states. The Tax Authority of the State of São Paulo claims that the tax incentives should be approved by Confaz, and are known as a "Tax War". The Tax Authority of the State of São Paulo do not recognizes the Company's ICMS tax credits up to the amount of the ICMS tax guaranteed in such other states. The Company estimates that the claims under these administrative proceedings amount to R\$ 1,224,731 in the aggregate. In addition to presenting its defense in such administrative proceedings, the Company has filed legal proceedings seeking the payment of damages from such other states if the Tax Authority of the State of São Paulo prevails in these administrative proceedings.

The Management believes, based on the advices from its legal counsel, that its arguments will prevail in these procedures, which is the reason why no provision were done.

The Tax Authority of the State of Goiás filed other administrative proceedings against the Company, due to interpretation divergences of the Law concerning the export VAT credits. Based on the opinion of the Company's external legal counsel, the management of the Company believes the Company will prevail in most of these proceedings, on the amount of R\$ 204,094. The management believes, based on the advices from its legal counsel, that its arguments will prevail in these procedures, which is the reason why no provision were done. The probability of loss is considered remote.

b) Social contributions — Rural Workers' Assistance Fund (FUNRURAL)

In January 2001, the INSS (Brazilian Social Security Institute) filed two administrative proceedings (autos de infração) against the Company, seeking to collect certain social security contributions (which are referred to as contributions to the Rural Workers' Assistance Fund (NOVO FUNRURAL) referring the period from January 1999 to December 2003, in the amount of R\$ 69,200, and from 2003 until 2006, in the amount of R\$ 198,800, with the aggregate amount of R\$ 268,000 million, that the Company should have allegedly withheld in connection with purchases of cattle from individual ranchers. As a result of a decision by a lower court in a proceeding to adjudicate a writ of mandamus action filed by the Company in order to challenge the constitutionality of such social security contributions, the administrative proceedings have been stayed and the INSS has been enjoined from collecting these social security contributions from the Company.

The Company has presented its defense in those administrative proceedings, informing that it does not collect the amount due to a favorable court ruling, so those processes are suspended until a final decision of the writ of mandamus.

This matter was the subject of a decision favorable to the taxpayer, issued by the Supreme Court - STF for a company whose activity is similar to the activity of the Company. For this reason, and based on advice from legal counsel, lawyers and renowned, the Company believes that the legality and enforceability of such taxation is quite low, which is why the Management is not providing for this contingency. Currently, the Company is not obligated to make any rebate or payment. If a discount is made for commercial reasons, the Company will deposit it in court and, fulfilling a court order. Based on the opinion of legal advisors and based on case law in favor of the Supreme Court in a similar case, management believes that its fundamentals will prevail and no provision was recorded for that contingency. The probability of loss is considered remote.

c) PIS / COFINS - Brazilian social contributions

The subsidiaries S.A. Fábrica de Produtos Alimentícios Vigor, Cia Leco de Produtos Alimentícios and Dan Vigor have proceeding of Programa de Integração Social - PIS (which is a Brazilian Social Integration Program) - questioning the following: (a) unconstitutionality of the tax imposed by Complementary Law No. 7/70; (b) taxation of other operating income in accordance with Law No. 9718/98; and (c) compensation for amounts owed to the public debt securities on the total provisioned amount of R\$ 14,449.

The subsidiaries S.A. Fábrica de Produtos Alimentícios Vigor, Cia Leco de Produtos Alimentícios and Dan Vigor have proceeding of Contribuição para o Financiamento da Seguridade Social - COFINS (which is a Brazilian Social Contribution of Security Financing) - questioning the following: (a) increase in rate from 2% to 3% according to Law No. 9718/98 - questioning until July 2003, and (b) compensation of amounts owed to the public debt securities on the total provisioned amount of R\$ 109,262.

d) Income tax and social contribution

The subsidiaries S.A. Fábrica de Produtos Alimentícios Vigor, Cia Leco de Produtos Alimentícios and Dan Vigor have proceeding of Income tax and social contribution, referring with the process of tax debts relating to income tax levied on the effects of the monetary restatement established by Law No. 8200/91 and questions related to the indices of monetary restatement resulting from "Plano Verão (an economic plan launched by the government on 1989)" on the total provisioned amount of R\$ 12,574.

e) Other tax and social security procedures

The Company is a Party in additional 364 tax and social security proceedings, in which the individual contingencies are not relevant for the Company's context. We highlight that the ones with probable loss risk have contingencies for R\$ 85,753 which are 100% provisioned.

Labor Proceedings

As of June 30, 2011 the Company was party to 6,958 labor and accident proceedings, involving total value of R\$ 691,131. Based on the opinion of the Company's external legal counsel, the Company's management recorded a provision in the amount of R\$ 47,187 for losses arising from such proceedings. Most of these lawsuits were filed by former employees of the Company seeking overtime payments and payments relating to their exposure to health hazards.

As of June 30, 2011, the subsidiaries S.A. Fábrica de Produtos Alimentícios Vigor, Cia Leco de Produtos Alimentícios and Dan Vigor were party to 324 labor proceedings filed by former employees, that were accrued by the Company based on an estimate of loss prepared by its legal counsel and approved by the management on the amount of R\$ 5,945.

Civil Proceedings**a) Slaughter facility at Araputanga**

In 2001, the Company (formerly known as Friboi Ltda.), entered into a purchase agreement for the acquisition of one slaughter facility located in the City of Araputanga, State of Mato Grosso, from Frigorífico Araputanga S.A. ("Frigorífico Araputanga"). As a result of the payment of the purchase price by the Company and the acknowledgement by Frigorífico Araputanga of compliance by the Company with its obligations under the purchase agreement, a public deed reflecting the transfer of title of the slaughter facility from Frigorífico Araputanga to the Company was registered with the applicable real estate notary.

As (i) Frigorífico Araputanga was a beneficiary of certain tax benefits granted by the Federal Government through an agency responsible for fostering the development of the northern region of Brazil (*Superintendência de Desenvolvimento da Amazônia* – SUDAM) and (ii) the slaughter facility sold to the Company was granted by Frigorífico Araputanga to SUDAM as collateral for these tax benefits the consent of SUDAM was required for the registration of the public deed with the applicable real estate notary. In September 2004, Frigorífico Araputanga S.A. filed a lawsuit against the Company in a state court located in the City of Araputanga, State of Mato Grosso, alleging that the Company breached the purchase agreement and seeking an injunction to prevent the Company from finalizing the transfer of the slaughter facility and a declaratory judgment that the purchase agreement and the public deed registered with the real estate notary were null and void.

The parties are waiting for new appraisal. The first judicial expert appraisal was favorable to the company, that after evaluating the payments made by Agropecuária Friboi, the appraisal concluded that the debit was already paid. The judicial appeal number 2006.01.00.024584-7 was judged favorably to the Company, when the "TRF" Regional Federal Court declared valid the purchase title deeds of the property, object of discussion. Based on the Company's legal advisers' opinion and based on Brazilian jurisprudence management of the Company believes that their arguments will prevail and no provision was registered. The probability of loss is considered remote.

b) Trademark Infringement

In July 2005, Frigorífico Araputanga filed a lawsuit against the Company seeking damages in the amount of R\$ 26,938 and punitive damages in the amount of R\$100,000 for the use by the Company of the trademark "Frigoara" without Frigorífico Araputanga's consent. The amounts of the claim were based upon a report presented by Frigorífico Araputanga to the trial court, which appraised the value of the trademark "Frigoara" at R\$ 315,000.

The Company presented its defense against this lawsuit alleging that (i) the lawsuit should be analyzed and reviewed together with the lawsuit relating to the purchase of the slaughter facility from Frigorífico Araputanga by the Company, (ii) the trademark "Frigoara" was used by the Company for a limited period of time, with the written consent and upon the request of Frigorífico Araputanga (the use of the trademark by the Company was a requirement of SUDAM to consent to the registration of the public deed contemplating the transfer of the slaughter facility from Frigorífico Araputanga to the Company) and (iii) the amount of any damages under the lawsuit should be limited to a percentage of products sold by the Company under the trademark "Frigoara," pursuant to article 208 of the Intellectual Property Law. Almost all of the products manufactured by the Company were marketed under the trademark "Friboi." The only product marketed by the Company under the trademark "Frigoara" was minced meat, in limited amounts. No provision was registered. The probability of loss is considered remote.

Following a determination of the judge of the trial court, the lawsuit was submitted to the review of the Federal Court of Cáceres on January 17, 2007. The judge of the Federal Court of Cáceres determined that this lawsuit be joined with the lawsuit relating to the purchase of the slaughter facility by the Company from Frigorífico Araputanga. The Federal Government will be notified to issue an opinion on the matter under discussion in this lawsuit. Based on the Company's legal counsel opinion supported by precedents of the Federal Brazilian Supreme Court (Supremo Tribunal Federal) and the Brazilian Superior Court of Justice (Superior Tribunal de Justiça), the Company's management believes that the Company will prevail in these proceedings.

c) Other civil proceedings

The Company is also part to other civil proceedings that in the evaluation of the Management and its legal advisers, the loss expectation on June 30, 2011 is R\$ 5,805 that it is provisioned.

Other proceedings

28 Transaction costs for the issuing of titles and securities

In accordance with the prerequisites under the IAS 39/CPC 38 – Financial Instruments - Recognition and assessment, the costs related to the transactions in the issuing of titles and securities must be accounted and stated in a highlighted fashion in the financial statements.

During the years of 2009 and 2010, the Company has carried out, respectively, transactions for the issuance of debentures and Public Offering of Shares - POS. However, to render this transactions effective, the Company incurred in transaction expenses, i.e., the expenses directly attributable to the activities that are necessary to effect these transactions, exclusively.

a) Debentures

To effect the transaction of issuance of debentures, the Company incurred in transaction expenses of R\$ 17,388, which were classified as a reducer of the fair value of the debentures, initially recognized for R\$ 3,479,600, therefore, evidencing the net value received of R\$ 3,462,212.

The debentures must be convertible, mandatorily, with security deposit certificates (Brazilian depository receipts - BDRs) sponsored of levels II or III, secured in ordinary shares, issued by JBS USA when the company went public (IPO), then the financial costs that support the issuance of the debentures will be reclassified for the Fiscal Year results. If the Liquidity Event does not take place, the bonds will convert, mandatorily, into shares issued by the Company. Therefore, the financial costs will be recorded directly under an account that reduces the Capital Stock.

In accordance with the IAS 39/CPC 38 - Financial Instruments, the financial instruments hired by the Company must be presented at their fair values. Therefore, as this is a certain Bond transaction, the par value expressed on the Bonds correspond to the fair value of the transaction, and the carrying out of adjustments related to the variation between the par and the fair value is not necessary.

Debentures capitalization - subsequent events

For presentation purposes, on June 30, 2011 the Company presented the capitalized debentures as capital reserve, see details on explanative note 22b. Therefore, based on the debentures classification into capital reserve, the Company transferred the debentures transaction costs to capital increase transaction cost.

b) Initial Public Offering of shares - IPO (Follow on)

In the year end on December 31, 2010, the Company had incurred in expenses of the order of R\$ 37,477 related to the costs of the transaction for securing resources to initial Public Offering, whose recording in the account that reduces the shareholder's equity, eventual effects are deducted.

c) Senior Notes Offering (Bonds)

In the year end on December 31, 2010, the Company had incurred in expenses of the order of R\$ 17,789 related to the costs of the transaction for securing resources to initial Public Offering (Bonds) – in the amounts of US\$ 700,000 and US\$ 200,000 realized on July and September of 2010, respectively, whose recording is under in a reduction of liabilities, the amortization will occur according to the flow of debt payments. On June 30, 2011, due to accumulated amortization of the amount through the flow of debt payments, the Company has a residual amount of R \$ 16,587.

JBS USA Contribution Plans

JBS USA sponsored two tax-qualified employee savings and retirement plans (the "401(k) Plans") covering its based employees, both union and non-union, excluding PPC employees, during the fiscal year ended December 31, 2010. On January 1, 2010, the employees of JBS Five Rivers joined the non-union 401(k) Plan and the balances for each participant were transferred from the former plan. On January 1, 2011, JBS USA merged the 401(k) Plans into one plan (the "401(k) Savings Plan") in order to increase administrative efficiencies and provide cost savings. Pursuant to the 401(k) Savings Plan, eligible employees may elect to reduce their current compensation by up to the lesser of 75% of their annual compensation or the statutorily prescribed annual limit and have the amount of such reduction contributed to the 401(k) Savings Plan.

The 401(k) Savings Plan provides for additional matching contributions by JBS USA, based on specific terms contained in the 401(k) Savings Plan. The trustee of the 401(k) Savings Plan, at the direction of each participant, invests the assets of the 401(k) Savings Plan in participant designated investment options. The 401(k) Savings Plan is intended to qualify under Section 401 of the Internal Revenue Code. The Company's expenses related to the matching provisions of these plans totaled US\$ 1.5 million for three months period ended June 30, 2011.

One of the facilities participates in a multi-employer pension plan. JBS USA contributions to this plan, which are included in cost of goods sold in the Consolidated Statements of Income, were US\$ 251 thousand for the three months period of June 30, 2011. The also made contributions totaling US\$ 16 thousand for the three months period ended June 30, 2011, to a multi-employer pension related to former employees at the former Nampa, Idaho plant pursuant to a settlement agreement.

Employees of JBS Australia do not participate in the Company's 401(k) Plans. Under Australian law, JBS Australia contributes a percentage of employee compensation to a Superannuation fund. This contribution approximates 9% of employee cash compensation as required under the Australian "Superannuation Act of 1997". As the funds are administered by a third party, once this contribution is made to the Superannuation fund, JBS Australia has no obligation for payments to participants or oversight of the fund. The expenses related to contributions to this fund totaled US\$ 8.3 million for the period of three months ended on June 30, 2011.

Pilgrim's Pride - PPC Contribution Plans

PPC sponsors programs that provide retirement benefits to most of their employees. These programs include qualified defined benefit pension plans, non-qualified defined benefit retirement plans, a defined benefit postretirement life insurance plan, defined contribution retirement savings plans and deferred compensation plans and deferred compensation plans. Under all of PPC's retirement plans, PPC's expenses were US\$ 3 million for the period of three months ended on June 30, 2011.

The pension and postretirement benefits plans have a fiscal year end which coincides with the Company's. Disclosures material to the consolidated financial statements are included below.

Qualified Defined Benefit Pension Plans:

- PPC Retirement Plan for Union Employees (the "Union Plan"),
- PPC Plan for El Dorado Union Employees (the "El Dorado" Plan), and
- PPC Pension Plan for Legacy Gold Kist Employees (the "GK Pension Plan").

The Union Plan covers certain locations or work groups within PPC. The El Dorado Plan was spun off from the Union Plan effective January 1, 2008 and covers certain eligible locations or work groups within PPC. This Plan was settled in 2010. The GK Pension Plan covers certain eligible US employees who were employed at locations that PPC acquired in its acquisition of Gold Kist, Inc. ("Gold Kist") in 2007. Participation in the GK Pension Plan was frozen as of February 8, 2007, for all participants with the exception of terminated vested participants who are or may become permanently and totally disabled. The plan was frozen for that group as of March 31, 2007.

Non-qualified Defined Benefit Retirement Plans:

JBS S.A.

Notes to the consolidated financial statements for the six months period ended June 30, 2011 and 2010
(Expressed in thousands of reais)

- The Former Gold Kist Inc. Supplemental Executive Retirement Plan (the "SERP Plan"), and
- the Former Gold Kist Inc. Directors' Emeriti Retirement Plan (the "Directors' Emeriti Plan").

PPC assumed sponsorship of the SERP Plan and Directors Plan through its acquisition of Gold Kist in 2007. The SERP Plan provides benefits on compensation in excess of certain Internal Revenue Code limitations to certain former executives with whom Gold Kist negotiated individual agreements. Benefits under the SERP Plan were frozen as of February 8, 2007. The Directors' Emeriti Plan provides benefits to former Gold Kist directors.

Defined Benefit Postretirement Life Insurance Plan:

- The Gold Kist Inc. Retiree Life Insurance Plan (the "Insurance Plan").

PPC assumed defined benefit postretirement medical and life insurance obligations, including the Insurance Plan, through its acquisition of Gold Kist in 2007. In January 2001, Gold Kist began to substantially curtail its programs for active employees. On July 1, 2003, Gold Kist terminated medical coverage for retirees age 65 and older, and only retired employees in the closed group between ages 55 and 65 could continue their coverage at rates above the average cost of the medical insurance plan for active employees. These retired employees will all reach the age of 65 by 2012 and liabilities of the postretirement medical plan will then end.

Defined Contribution Plans:

PPC currently sponsors two defined contribution retirement savings plans:

- The Pilgrim's Pride Retirement Savings Plan (the "RS Plan"), a Section 401(k) salary deferral plan, and
- The To-Ricos Employee Savings and Retirement Plan (the "To-Ricos-Plan"), a Section 1165 (e) salary deferral, and

PPC also maintains three postretirement plans for eligible Mexico employees as required by Mexico law that primarily cover termination benefits. Separate disclosure of the Mexican plan obligations is not considered material.

Under the RS Plan, eligible US employees may voluntarily contribute a percentage of their compensation. The To-Ricos Plan is maintained for certain eligible Puerto Rican employees.

Certain retirement plans that PPC sponsors invest in a variety of financial instruments. In response to the continued turbulence in global financial markets, PPC has analyzed their portfolios of investments and, to the best of their knowledge, none of their investments, including money market funds units, commercial paper and municipal securities, have been downgraded because of this turbulence, and neither PPC nor any fund in which PPC participates hold significant amounts of structured investment vehicles, auction rate securities, collateralized debt obligations, credit derivatives, hedge funds investments, fund of funds investments or perpetual preferred securities. Certain postretirement funds in which PPC participates hold significant amounts of mortgage-backed securities. However, none of the mortgages collateralizing these securities are considered subprime.

Bertin USA Plans

Bertin USA sponsored a tax-qualified employee savings and retirement plan (the "Bertin 401(k) Plan") covering its U.S. based employees during the quarter ended June 30, 2011. The Bertin 401(k) Plan provides for additional matching contributions by Bertin USA, based on specific terms contained in the Bertin 401(k) Plan. The trustee of the Bertin 401(k) Plan, at the direction of each participant, invests the assets of the Bertin 401(k) Plan in participant designated investment options. The Bertin 401(k) Plan is intended to qualify under section 401 of the Internal Revenue Code. Bertin USA's expenses related to the matching provisions of the Bertin 401(k) Plan totaled approximately US\$76 thousand for the three months period ended June 30, 2011.

Bertin USA has a defined benefit and a supplemental benefit pension plan covering retirees meeting certain age and service requirements. The plan benefits are based primarily on years of service and employee's compensation. The funding policy is to meet ERISA funding requirements and to accumulate plan assets, which will, over time, approximate the present value of projected benefits payable. Plan assets are invested solely in a group annuity contract. The defined benefit and supplemental benefit plans were frozen on December 31, 1995.

Bertin USA also provides certain health care and life insurance benefits for certain retired and terminated employees based on contractual obligations incurred by JBS USA Trading's previous owners. Bertin USA has elected immediate recognition of the unfunded accumulated postretirement benefit obligation in conjunction with the purchase of the common stock of JBS USA Trading. The postretirement payments are funded in monthly installments.

As of December 31, 2010 the plan's projected benefit obligation and plan asset balances were US\$ 5.4 million and US\$ 3 million, respectively. The remaining unfunded balance of US\$2.4 million was accrued on the opening balance sheet at December 31, 2010. Bertin USA funded US\$ 34 thousand to its defined benefit plans during the thirteen weeks ended June 30, 2011. The unfunded balance at June 30, 2011 was US\$2.4 million. The discount rate and estimated return on plan asset rates were 6.25% and 7.50% as of December 31, 2010, respectively. The plan assets consisted 100% of debt securities at December 31, 2010.

30 Deferred revenue

On October 22, 2008, the JBS US received a deposit in cash from a customer of US\$ 175.0 million for the customer to secure an exclusive right to collect a certain by-product of the beef fabrication process in all of our U.S. beef plants. This agreement was formalized in writing as the Raw Material Supply agreement ("Supply Agreement") on February 27, 2008. The customer advance payment was recorded as deferred revenue on JBS USA and as other liabilities on consolidated financial statements. As the by-product is delivered to the customer over the term of the agreement, the deferred revenue is recognized within gross sales in the Consolidated Statements of Income.

To provide the customer with security, in the unlikely event the JBS USA was to default on its commitment, the payment is evidenced by the Supply Agreement which bears interest at the three-month LIBOR plus 200 basis points. The interest rate at June 30, 2011 was 2.2%. In the event of default, the Supply Agreement provides for a conversion into shares of common stock of JBS USA Holdings based on a formula stipulated in the Supply Agreement. Assuming default had occurred on June 30, 2011, the conversion right under the Supply Agreement would have equaled 8.65% of the outstanding common stock, or 8.65 shares.

JBS USA was in compliance with all covenants as of June 30, 2011. The unamortized balance at June 30, 2011 and December 31, 2010 was approximately US\$ 121.1 (R\$ 189,0) million and US\$ 136.9 (R\$ 228,1) million, respectively.

34 Risk management and financial instruments

The Company and its subsidiaries generate, during the regular course of their operations, exposures to market, credit and liquidity risks. Those exposures are managed in an integrated way by the Risk Management Department, following directives from the Risk Management Policy defined by the Risk Management Committee and the Company Directors.

The Risk Management Department is responsible for mapping all the risk factors that may bring adverse financial results for the Company and propose strategies to mitigate those risks. The Risk Management Committee is responsible for approving the strategies and supervising their implementation, following competence levels and the Risk Management Policy.

a) Market Risk

In particular, the exposure to market risk are constantly monitored, specially the risk factors related to foreign exchange, interest rates and commodity prices, which directly affect the value of financial assets and liabilities, future cash flow and net investments in operations abroad. In these cases the Company and its subsidiaries may use financial hedge instruments, including derivatives, given the approval by the Risk Management Committee.

The Risk Management Department is responsible for providing hedge instruments to all operational departments of the Company, centralizing all risk exposures and managing those risks following the Risk Management Policy. It is the function of the Board of Control Risks ensure that other areas of operations are within the exposure limits set by management, are financially protected against price fluctuations, centralizing the exhibits and applying the Risk Management Policy of the Company;

The Risk Management Department uses proprietary and third party information systems specially developed to control and manage market risk, applying stress scenario and value at risk analysis to measure the net exposure as well as the specific exposure to the exchanges.

a.1) Interest rate risk

Interest rate risk is related to potentially adverse results that may arise from oscillations in this risk factor, which may be caused by economic crisis, sovereign monetary policy alterations, or market movements. The Company has assets and specially liabilities exposed to interest rates like the CDI (Certificado de Depósito Interbancário), TJLP (Taxa de Juros de Longo Prazo), UMBNDES (Unidade Monetária do BNDES), LIBOR (London Interbank Offer Rate) and EURIBOR (Euro Interbank Offer Rate), among others. The Risk Management Policy does not define levels to the proportion between float and fixed exposures, but the Risk Management Department follows market conditions and may propose the Risk Management Committee strategies to rebalance the exposure.

The interest rate exposure of the Company and its subsidiaries on June 30, 2011 and December 31, 2010 is described below.

a.2) Exchange rate risk

Exchange rate risk is related to potentially adverse results that may arise from oscillations in this risk factor, which may be caused by economic crisis, sovereign monetary policy alterations, or market movements. The Company has assets and liabilities exposed to foreign currencies, however the Risk Management Policy does not believe in natural hedging from those opposite exposures, since other important issues like expiry matching and market volatility are very relevant and must be observed.

The Risk Management Department applies approved hedge instruments to protect financial assets and liabilities, potential future cash flow from commercial activities and net investments in foreign operations. Futures, NDFs (non deliverable forwards), options and swaps may be used to hedge loans, investments, flows from interest payments, acquisition of raw material, and other flows, whenever they are quoted in currencies different than the Company's functional currency. The main exposures to exchange rate risk are in US Dollars, Australian Dollars, Euros and the British Pound.

Below are presented the Company's assets and liabilities exposed to the exchange rate risk for the periods ended on June 30, 2011 and December 31, 2010. The exposure in the subsidiaries are irrelevant for this analysis.

- (a) The swap assets contract value is calculated based on the dollar exchange rate on the maturity plus interest of 6% p.a.
(b) Swap result is the difference between assets and liabilities at fair value.

a.3) Commodity price risk

The Company is a global player in different areas related to the Agribusiness (the entire livestock protein chain, biodiesel, dairy products, among others) and the regular course of its operations brings exposures to price oscillations in feeder cattle, live cattle, lean hogs, corn, soybeans, and energy, especially in the American, Australian and Brazilian markets. Commodity markets are characterized by volatility arising from external factors like climate, supply levels, transportation costs, agricultural policies, storage costs, among others. The Risk Management Department is responsible for mapping all the Company's exposures to commodity prices oscillations and for proposing strategies to mitigate those risks to the Risk Management Committee. The Risk Management Committee is responsible for approving the strategies and supervising their implementation, and analyzing their effectiveness, following competence levels and the Risk Management Policy.

A very important part of the Company's raw materials needs are biological assets sensitive to stockpiling. In order to guarantee future supply of these materials the Company contracts anticipated purchases from suppliers. Aiming at mitigating price oscillations risks from these operations as well as from other exposures like inventories and future sales orders, the Company and its subsidiaries use hedging instruments specific for each exposure, most notably futures contracts.

a.3.1) Position balance in commodities contracts

The balance in commodities contracts are as follow:

| EXPOSURE | Consolidated | |
|----------------------|------------------|-------------------|
| | June 30, 2011 | December 31, 2010 |
| OPERATING | | |
| Firm Contracts - R\$ | 4.151.695 | 1.871.573 |
| TOTAL | 4.151.695 | 1.871.573 |

b) Credit risk

The Company and its subsidiaries are potentially subject to credit risk related to accounts receivable, investments and hedging contracts. The Risk Management Policy understands that the pulverized portfolio contributes significantly to reduce the credit risk, but parameters are set to operations where credit is provided, observing financial ratios and operational health, as well as consults to credit monitoring entities.

JBS S.A.

Notes to the consolidated financial statements for the six months period ended June 30, 2011 and 2010
(Expressed in thousands of reais)

The Risk Management Department follows all operations involving credit risk with financial institutions (investments and hedging), monitoring exposure limits set in the Risk Management Policy based in credit ratings provided by international rating agencies. The Company held in June 30, 2011 investments with balances larger than R\$10.000 with the following institutions: Caixa Econômica Federal, Schahin, Santander, Safra, Banco do Brasil, Bradesco, Pine, Itaú, HSBC, JP Morgan and New York Mellon.

The Company held in June 30, 2011 hedging contracts with fair value larger than R\$10.000 with the following institutions: Credit Suisse and Citibank.

c) Liquidity risk

Liquidity risk arises from the management of working capital of the Company and its subsidiaries and amortization of financing costs and principal of the debt instruments. It is the risk that the Company and its subsidiaries will find difficulty in meeting their financial obligations falling due.

The Company and its subsidiaries manage their capital based on parameters optimization of capital structure with a focus on liquidity and leverage metrics that enable a return to shareholders over the medium term, consistent with the risks assumed in the transaction.

The Management of the Company's liquidity is done taking into account mainly the immediate liquidity indicator modified, represented by the level of cash plus investments divided by short-term debt. It is also maintained a focus on managing the overall leverage of the Company and its subsidiaries to monitor the ratio of net debt to "EBITDA" at levels we considered to be manageable for continuity of operations.

Based on the analysis of these indicators, the management of working capital has been defined to maintain the natural leverage of the Company and its subsidiaries at levels equal to or less than the leverage ratio that we want to achieve.

The index of liquidity and leverage consolidated are shown below:

| | Consolidated | |
|--------------------------------|---------------|-------------------|
| | June 30, 2011 | December 31, 2010 |
| Cash and cash equivalents | 4.960.182 | 4.074.574 |

d) Estimated market values

The assets and liabilities are represented in the financial statements at cost and their appropriations of revenues and expenses are accounted for in accordance with its expected realization or settlement.

The market values of non-derivative financial instruments and derivatives were estimated based on information available on the market.

e) Guaranteed margins

The Company has securities pledged as collateral for derivative transactions with the commodities and futures whose balance at June 30, 2011 is R\$ 198,196 (R\$ 500,195 at December 31, 2010). This warranty is superior to the need presented for these operations. The indirect subsidiary has securities pledged as collateral for derivative transactions with the commodities and futures whose balance at June 30, 2011 is R\$ 131,289 (R\$ 37,255 at December 31, 2010). This warranty is superior to the need presented for these operations.

f) Fair value of financial instruments

The assets and liabilities are represented in the financial statements at cost and their appropriations of revenues and expenses are accounted for in accordance with its expected realization or settlement. The derivatives market of future fair values are calculated based on daily adjustments for changes in market prices of stock futures and commodities that act as counterparty. The swap is obtained by calculating independently the active and passive parts, bringing them to their present value. The future prices used to calculate the curve of the contracts were drawn from the Bloomberg database.

In accordance with IFRS 7, the Company and its subsidiaries classify the measuring of fair value in accordance with the hierarchical levels that reflects the significance of the indices used in this measurement, as the following levels:

Level 1: Prices quoted in active markets (unadjusted) for identical assets and liabilities;

Level 2 - Additional information available, except those of Level 1, in which prices are quoted for similar assets and liabilities, either directly by obtaining prices in active markets or indirectly, as valuation techniques that use data from active markets.

Level 3 - The indices used for calculation are not derived from an active market. The Company and its subsidiaries do not have this level of measurement instrument.

As noted above, the fair values of financial instruments, except for those maturing in the short term, equity instruments with no active market and contracts with discretionary features that fair value can not be reliably measured, are presented in hierarchical levels of measurement below:

35 Material facts

JBS signs an agreement with the Brazilian State of Acre

The Company announced that it signed an agreement with the Public Authorities of the Brazilian State of Acre, as well as with other Government Authorities from various Brazilian States on the April 27, 2011. The Company anticipated this event in the Notice to the Market of April 19, 2011. The agreement puts an end to the civil action against JBS and eliminates any possibility of a fine.

For the Company, this agreement (valid throughout Brazil) embodies its ongoing and sustainable practices in the Amazon Region and reaffirms its commitment to transparency and social and environmental development. This agreement is aligned with the Company's principles and with its shareholders, including the BNDES (Brazilian Social and Development Bank) with whom the Company already has an ongoing agreement to implement innovative environmental practices throughout the meat supply chain, resulting in a more sustainable sector.

This agreement with these Government Authorities reinforces the work being done by the Company with cattle ranchers. The company has enhanced the partnership with Embrapa (the renowned Brazilian Agriculture Research Institute) to promote Good Agricultural Practices (BPA) with cattle ranchers in all regions.

Summary of Statement from the Ministry of Justice's Secretariat of Economic Monitoring (SEAE)

The Company informed the market that on April 29, 2011 the Ministry of Justice's Secretariat of Economic Monitoring ("SEAE/MF") issued a summary of a statement regarding Concentration Act no. 08012.008074/2009-11, which deals with the association between JBS and Bertin S.A.

The summary of statement mentioned above suggests the approval of Bertin's acquisition, subject to the sale of a plant (slaughterhouse) in the States of Goiás and Minas Gerais equivalent to Bertin's market share in such states prior to the transaction.

SEAE/MF's opinion is a non-binding document and the conclusions thereof shall not necessarily be considered as an indicative of the final decision to be issued by the Administrative Council for Economic Defense ("CADE"), which shall be responsible for the final decision regarding the anti-competitive aspects of the referred transaction. The Company believes that the transaction does not violate antitrust laws in such States and will continue to actively cooperate with the responsible authorities in order to have the transaction approved in its entirety.

JBS Continues to Export to Russia

On June 2, 2011, the Company communicated to its shareholders and to the market in general that following the news that Russia has banned animal protein imports from the three Brazilian states of Mato Grosso, Paraná and Rio Grande do Sul, three production facilities of the Company will effectively be restricted due to this ban.

While the Company believes that authorities from both countries will work towards resolving these issues in the short term, JBS will continue to serve its many Russian customers from another 8 production facilities approved and operating in Brazil as well as from its production platforms outside of Brazil.

Asset Based Loan – US\$ 850,000,000 – LIBOR + 1.75% Annually

Completion of the Company's Debt Rebalancing

The Company communicates to its shareholders and to the market in general, as the last part of the Company's debt rebalancing process announced in a Notice to the Market on May 12, 2011, that its subsidiary JBS USA, LLC today priced its Asset Based Loan (ABL) with a principal amount of US\$850 million and an interest rate of LIBOR + 1.75% annually, with a 5 year maturity.

The Company opted to expand the initial amount from US\$800 million to US\$850 million due to demand which reached US\$2 billion, and an interest rate significantly lower than expected.

This operation completes the debt rebalancing process of the Company which includes the following completed operations:

- Senior Unsecured Bond in the amount of US\$ 650 million with a 10 year maturity and a coupon of 7.25% annually.
- Term Loan B in the amount of US\$ 475 million with a 7 year maturity and a cost of LIBOR + 3% annually.
- Term Loan A in JBS Five Rivers in the amount of US\$ 85 million with a 5 year maturity and a cost of LIBOR + 2.75% annually.

The total operations amounted to US\$2.06 billion with an average cost of 4.35%, resulting in a reduction in the cost of debt and a more efficient tax structure which together represent a savings for the company around US\$ 150 million per year. Besides this, there will be an improvement in debt profile, reducing the share of short term debt.

CONSOLIDATED RESULTS

Net Revenues

JBS posted consolidated net revenue of R\$14,621.8 million in 2Q11, an increase of 3.6% compared to 2Q10. All business units presented organic growth from 2Q10 to 2Q11, in their local currency, reflecting an overall increase in average prices and strong demand in emerging markets.

Due to the appreciation of the real against the dollar, the net revenue in Reais stayed practically stable in comparison to 1Q11. Excluding the Fx variation, revenue increased by 4.1%.

EBITDA

EBITDA for 2Q11 was R\$587.7 million, a decline of 41.2% compared to 2Q10, due to the underperformance by Pilgrim's Pride (JBS USA Chicken), and the weak performance of JBS USA Beef division.

However, during the first semester of 2011, the EBITDA of the Beef and Pork business units in the US totaled US\$503.3 million, 12.1% higher than the corresponding semester of 2010.

Financial Results

Financial Results for the quarter increased 9.5% when compared with 2Q10 due to Fx hedge position.

Net Income / Loss

The loss for the period was R\$180.8 million, equivalent to minus R\$0.07 EPS, due to the Chicken Operations which incurred a net loss of US\$ 128.1 million and the challenges faced by the Beef Operations in the US, as mentioned above.

Capital Expenditure

In 2Q11, the total capital expenditure (CAPEX) of JBS in property, plant, and equipment was R\$277.1 million. The principal investments were for the improvement of productivity and the increase in storage capacity and distribution.

Issuance of Debt at JBS USA

The Company concluded the issuance of long-term debt totaling more than US\$2.0 billion through its wholly owned subsidiary, JBS USA, with an average cost below 4.5% per annum. Part of this amount is already on the 2Q11 balance sheet, which explains the increase in gross debt. The purpose of this issuance is to pay down more expensive shorter term debt in Brazil, reducing financial cost and increasing tax efficiency. The benefit of this operation is estimated to be US\$150 million annually.

Indebtedness

JBS' net debt to EBITDA, excluding Pilgrim's Pride (PPC), a US Listed Company controlled by JBS, increased from 2.9x in 1Q11 to 3.2x in 2Q11. The increase in leverage reflects the underperformance of the Beef business unit in the US, combined with an increase in the need for working capital, due to the increase in raw material costs and production inputs.

Pilgrim's Pride was excluded from the debt calculation of JBS due to the fact that PPC is a non-recourse subsidiary controlled by JBS.

(1) EBITDA LTM

Including Pilgrim's Pride's performance in the results of JBS, the leverage went from 3.1x in 1Q11 to 3.6x in 2Q11. PPC presented negative EBITDA in the first semester of 2011 which significantly reduced the annualized EBITDA used to calculate the ratio.

On June 24th, 2011 PPC announced an amendment to its financial structure to suspend the existing covenants of the fixed-charge coverage and of the senior secured debt ratio until 4Q12.

ANALYSIS OF RESULTS BY BUSINESS UNIT

JBS USA Beef (including Australia) – 43% of JBS S.A. Net Revenues

Net revenue for the period was US\$3,964.0 million, outperforming 2Q10 by 19.1%. 2Q11 results reflect an increase in average sales prices. Comparing to 1Q11, the revenue increase was 4.5%.

EBITDA was US\$44.7 million in the period, a decrease of 77.1% and 83.4% over 2Q10 and 1Q11, respectively, with an EBITDA margin of 1.1% in 2Q11. The results of the quarter reflect difficulties encountered by the Australian operation, primarily due to a strong Australian dollar and the impact of the mark-to-market hedge structure for the long position on cattle in the US, which depreciated significantly in the quarter due to the drought that hit the southern U.S. and the resulting increase in the supply of cattle for slaughter.

The operations in Australia, besides suffering from currency appreciation, faced other challenges like the increase in collections by the Government, the carbon tax project and the increase in labor costs without any corresponding increase in productivity.

Despite the lower than expected results for the quarter, EBITDA for the 1st semester of 2011 of the Beef and Pork units in the U.S. totaled US\$503.3 million, compared to US\$449 million in the first semester of last year, a 12.1% increase.

JBS USA Pork – 10% of JBS S.A. Net Revenues

Net revenue for the period was US\$845.8 million, 14.4% above 2Q10, reflecting a significant increase in export volumes and average sales prices. Compared to the previous quarter, the increase was 1.1%.

EBITDA reached US\$83.6 million in the quarter, 71.7% higher y-o-y. EBITDA margin was 9.9% in 2Q11. Comparing with EBITDA of 1Q11, there was a 20.6% decrease.

The Pork Business unit performance remains strong due to an increase in the sales prices of pork items and significant demand from the export market, combined with streamlined operation, lower cost of production and an adjusted product mix with higher aggregate value products in order to maximize performance.

For the 1st Semester of 2011, the EBITDA totaled US\$188.9 million, 125.9% greater than the same period in 2010, which was US\$83.6 million.

JBS USA Chicken (Pilgrim's Pride Corporation, a US listed Company which is controlled by JBS USA) – 22% of JBS S.A. Net Revenues

Net revenue for the period was US\$1,992.7 million, 16.7% higher than 2Q10, reflecting an increase in volumes sold. Compared to 1Q11, the increase was 5.3%.

EBITDA was minus US\$47.6 million, compared to minus US\$55.2 million in 1Q11. The negative EBITDA reflects the high input grain prices, weak demand in the period and falling prices for certain products, principally the domestically sold cuts. Exports continue to grow, reaching record levels, higher than the U.S. chicken industry average levels.

The Company announced the closure of its Dallas plant due to occur by late September. Production from this plant will be redistributed to the other plants in east Texas, increasing the capacity utilization and efficiency of these plants as well as reducing production costs.

PPC remains focused on reducing costs, extracting synergies and achieving operational efficiencies to mitigate the effects of grains in the cost of goods sold. In addition, the Company is committed to improving the product mix and to increase the sales prices to reflect the current market conditions.
